

# CLOUD & SECURITY EVALUATIONS

**What is a Cloud & Security Evaluation, and how could you benefit from one?**

68%

of organizations have experienced one or more endpoint attacks that successfully compromised data and/or their IT infrastructure.

Microsoft's Cloud & Security Evaluation is developed to provide actionable insights for your unique IT environment. The evaluation will enable you to understand risks, find opportunities to optimize and modernize, and offer clear pathways to make the most of your investment and simplify your IT footprint.

## With ECF Data, you will be able to:

Establish a more robust security posture that leverages Microsoft cloud tools and best practices

Strategize a plan by leveraging programmatic incentives, removing redundancies, and ensuring that what you have is what you need - and vice versa.

Explore opportunities with performance-based insights

ECF Data implements a strategic approach, customizing solutions for your unique challenges.

Our team of experts is trained not only in Microsoft solutions but addressing your needs.

Your business is our business. That's why we root and help you with your success.
