ECF DATA

CAPABILITY STATEMENT

DATA SECURITY WITH MICROSOFT PURVIEW

COMPANY OVERVIEW

ECF Data is a trusted Microsoft partner, providing comprehensive data security solutions to safeguard sensitive information across all stages of its lifecycle. With deep expertise in Microsoft Purview and Security Copilot, we help organizations manage compliance, mitigate risks, and maintain data integrity.

KEY CAPABILITIES OF PURVIEW WITH ECF DATA

Data Security

Protects data from unauthorized access, data loss, and insider threats, leveraging advanced labeling, encryption, and adaptive policies.

Data Governance

Supports safe, compliant data use with tools for discovery, quality control, and actionable insights across the data lifecycle.

Data Compliance

Ensures regulatory alignment by safeguarding structured and unstructured data with compliance management, eDiscovery, and lifecycle tools.

ECF DATA'S DATA SECURITY SOLUTIONS

END-TO-END PROTECTION

Protects data, identities, endpoints, email, and hybrid/cloud infrastructure to ensure security across your data estate.

RISK MANAGEMENT & COMPLIANCE

Helps meet regulatory, industry, and local requirements with solutions that integrate compliance and security seamlessly.

AI-POWERED SECURITY

Automatically detects and classifies sensitive data, saving time on manual monitoring and enabling dynamic, AI-driven threat response.

COST OPTIMIZATION & EFFICIENCY

Delivers cost savings of up to 60% by consolidating tools and reducing management burden.
