

# CAPABILITY STATEMENT

## Migrate & Secure Windows & SQL Server

ECF Data is a Microsoft Gold Partner specializing in IT solutions, cloud migrations, and digital transformation. With over a decade of experience, we help organizations modernize their infrastructure by migrating and securing Windows and SQL Server workloads on Microsoft Azure, ensuring improved performance, scalability, and security.

### CORE COMPETENCIES

#### WINDOWS & SQL SERVER MIGRATION

Seamless migration of Windows Server and SQL Server workloads to Azure, enhancing performance and reducing costs with Azure Hybrid Benefit and Reserved Instances.

#### SECURITY & COMPLIANCE

We safeguard your critical applications with Azure-native security tools, ensuring protection from cyber threats and meeting compliance requirements.

#### EXTENDED SECURITY UPDATES

Benefit from free extended security updates for Windows and SQL workloads on Azure, eliminating concerns about end-of-support issues.

#### AUTOMATION & COST AUTOMATION

Seamless migration of Windows Server and SQL Server workloads to Azure, enhancing performance and reducing costs with Azure Hybrid Benefit and Reserved Instances.

### KEY BENEFITS

#### Proven Expertise

ECF Data has extensive experience in Windows and SQL Server migrations, ensuring a smooth transition to Azure.

#### Cost Savings

Leverage Azure Hybrid Benefit and Reserved Instances for significant savings compared to on-premises solutions.

#### Comprehensive Cloud Management

Our services include not only migration but also post-migration management, offering continued support and optimization of Azure.

#### End-to-end Solution

From assessment to deployment and ongoing management, we provide a complete, streamlined solution tailored to your business needs.
