CAPABILITY STATEMENT
SAP MIGRATION ON AZURE

ECF Data is a trusted expert in SAP migration, offering reliable, standardized solutions on Microsoft Azure. With over 15 years of combined experience in SAP and Microsoft, we ensure seamless transitions, modernizing business processes and enabling agile value chains.

WHY AZURE FOR SAP?

RESILIENCE & FLEXIBILITY

Azure provides SAP-certified infrastructure across 50+ regions, ensuring reliable performance.

STANDARDIZED ARCHITECTURAL DESIGN

We implement SAP on Azure using reference architectures and best practices, optimizing service levels, KPIs, and business continuity.

SECURE, AUTOMATED DEPLOYMENT

Our automated processes cover virtual machines, OS, databases, and SAP systems, ensuring high security and efficient lifecycle management.

IDENTITY AND ACCESS MANAGEMENT

By integrating Azure Active Directory, we provide role-based access control and comprehensive security policies.

COST OPTIMIZATION

We monitor Azure consumption, offering cost control and optimization services to ensure transparent and manageable expenses.

ECF DATA

ECF DATA'S SERVICE APPROACH

We provide cloud migration, modernization, and lifecycle management services, including SAP deployment, backups, and disaster recovery. Our Azure-native solutions ensure the security and accessibility of your critical applications while enhancing business processes.

- Discovery workshops to capture security, compliance, and hybrid infrastructure requirements.

- A secure Azure Landing Zone with cost management, Key Vaults, and monitoring tools.

- Migration of agreed Windows and SQL workloads to Azure.

- Complete documentation and a handover to ensure smooth management of the new environment.
