ENHANCING YOUR SECURITY POSTURE

ABOUT ECF DATA, LLC:

For more than a decade, ECF Data has been helping companies accelerate growth and innovate new and existing business models. Services include consulting, technology, and managed services for applications, cloud, workplace, data center, cybersecurity, and networks.

See what customers are saying:

“The Defend Against Threats with SIEM Plus XDR workshop helped us understand our security goals and objectives which fueled us to enhance our security posture.”

~Tony Gage, Vice President of IT, Curaleaf

WHAT WE OFFER

ECF Data offers the Defend Against Threats with SIEM Plus XDR Workshop which enables you to build intent for sales and deployment of advanced Microsoft Security workloads.

What can you expect from the workshop?

- A deep investigation from Threat Check on cyberattack threats discovered focusing on your organization
- Actionable recommendations to help swiftly mitigate the discovered threats
- A detailed evaluation of your IT and security priorities and initiatives from cybersecurity experts
- An inside look at Microsoft’s holistic approach to security, and how it relates to your organization
- Demonstrations of integrated security, including the latest tools and methods
- Long-term recommendations from Microsoft professionals about your security strategy, with key initiatives and tactical next steps

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

Key use cases

Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.
