Elvis ERP 2.0
Improving Every Aspect of Education Experience

About

Elvis Education ERP 2.0

- Elvis Education ERP has changed everything when it comes to campus automation solution. We focus on simplicity and usability by avoiding cluttering interface and complex task for user experience with Elvis Education ERP Software.
- Elvis 2.0, an University Automation Software offers easy access of all data about student, Faculties, Departments under the university at the same place.
- Elvis 2.0 CRM module covers the Marketing & Admission Automation - Starting from lead generations from different channels like social media, agent engagements, walk-in applications, counsellors applications etc.

- Elvis streamline all the channels of lead generation into one platform and optimise the lead allocations effectively and process the applications efficiently. Each leads or applications will have their own prerequisite and eligibility conditions based on the programs they choose. Elvis 2.0 will automate that process of collecting the prerequisite data along with required documents and will check the eligibility for the chosen program automatically. System also allocates other programs if the chosen programs are not eligible based on their qualifications. This will automated the whole process of marketing and admission procedures and will reduce the human effort in doing.
- Elvis 2.0 have more than 20+ base modules like Fee management, Exam management, Library, Investment Management, ISSO, Etc.
- Elvis 2.0 also have a collaborative learning platform named Elvis VLS in which students and facilities have login and will be used for any kinds of learning activities including the material sharing, live classes, Assignments etc.

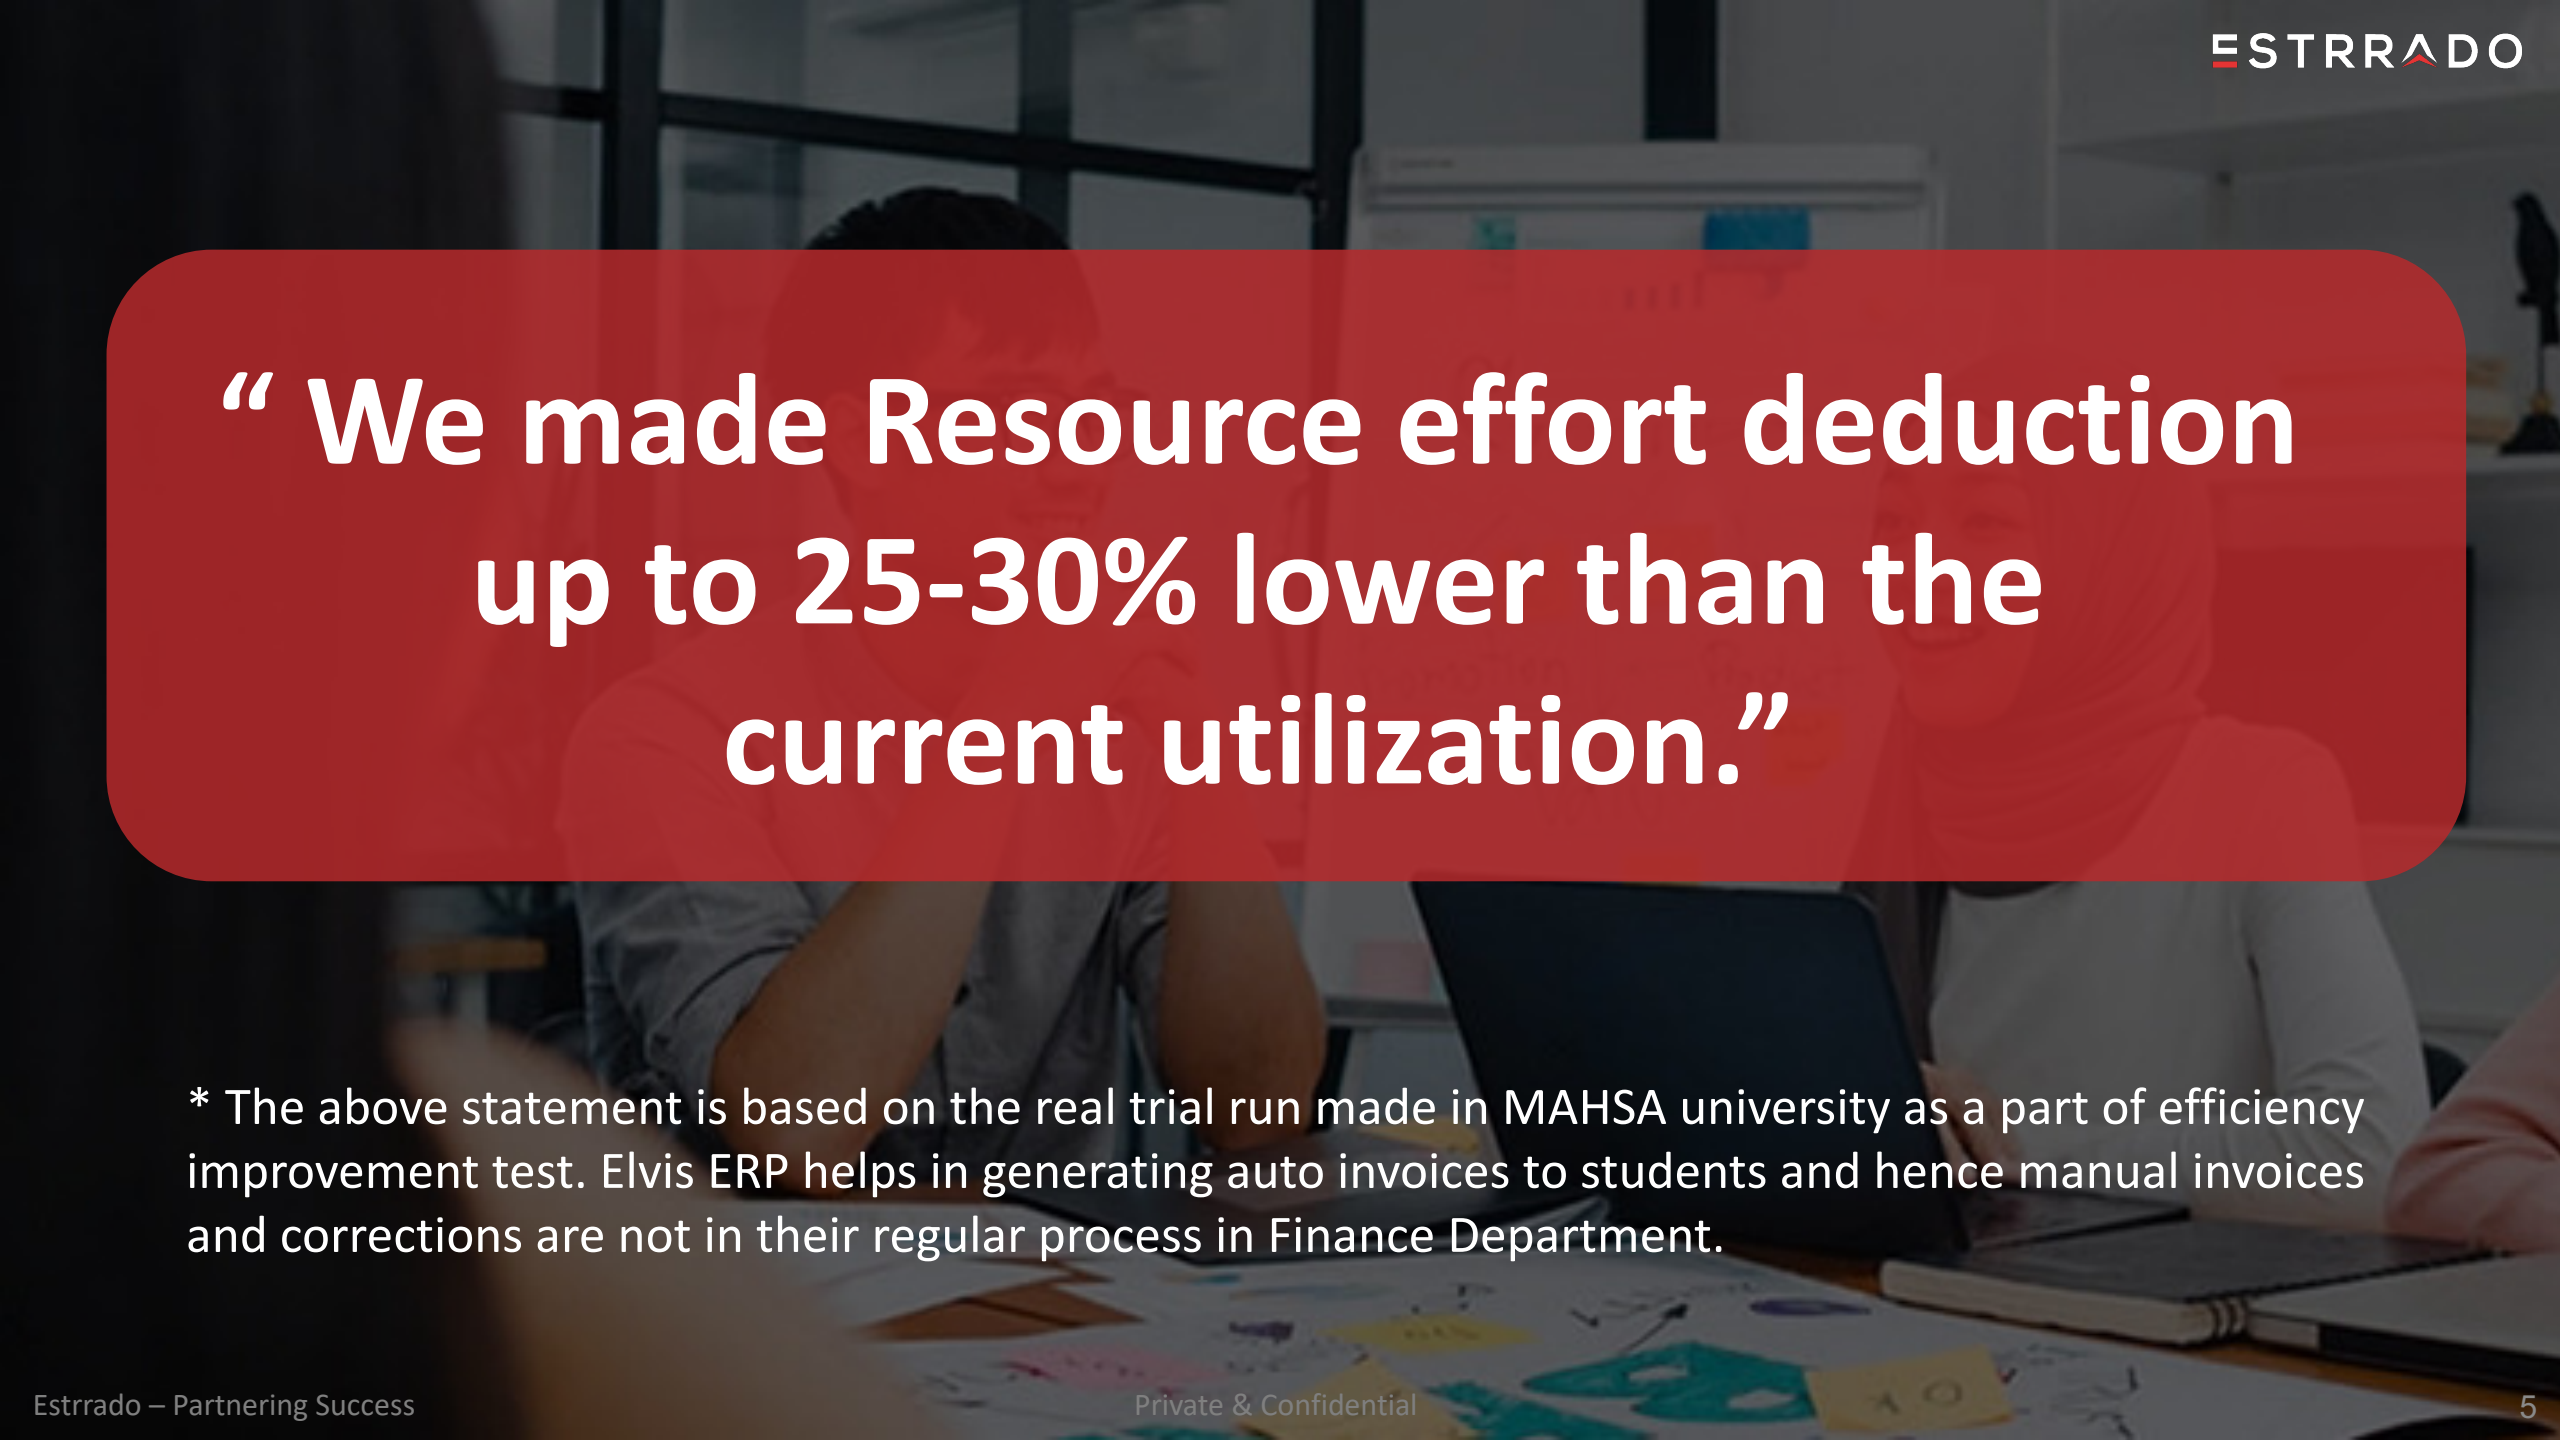
- Front Office
- Certificates
- Training
- SMS & Email Alerts

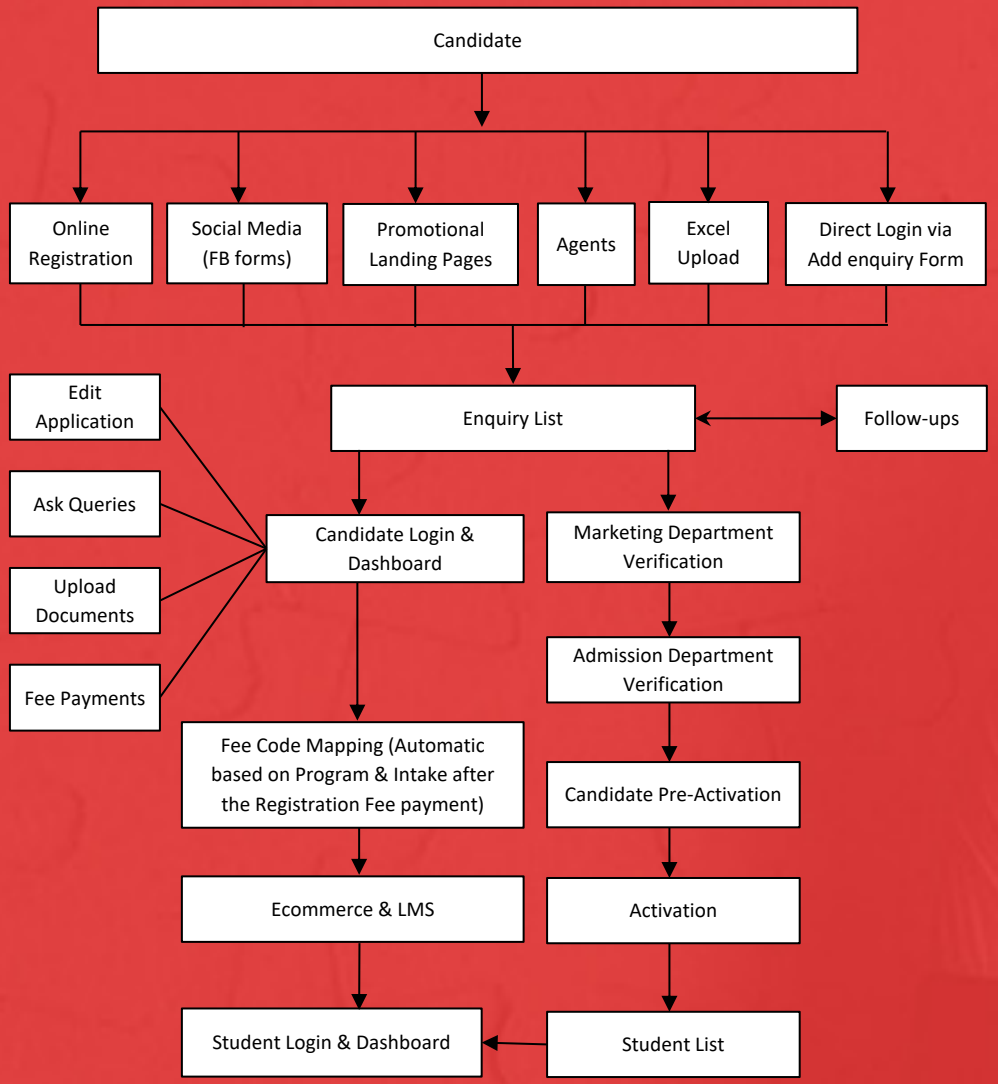


“ We made Resource effort deduction up to 25-30% lower than the current utilization.”

* The above statement is based on the real trial run made in MAHSA university as a part of efficiency improvement test. Elvis ERP helps in generating auto invoices to students and hence manual invoices and corrections are not in their regular process in Finance Department.

Elvis 2.0 CRM

Sample Marketing Flow



MARKETING – ADMISSIONS CRM Automation Modules	
Lead Management	Document Verification
External Website/Social Media Integrations	Interview Scheduling
