echo3D

Cloud Platform for 3D Asset Management

Unity Verified Solutions Partner | Qualcomm | intel. | NVIDIA. INCEPTION PROGRAM

NEXTNAV | READY PLAYER ME | Zappar | LG | LG NOVA

Help teams store, secure, and share 3D content in real-time across their organization

Simpler 3D Asset Management

Manage your 3D asset library across your organization and share 3D content that can be updated in real-time.

Faster 3D Deployment

Automate your content release process and stream compressed 3D assets to any device or platform, anywhere.

Cutting-edge 3D Optimization

Compress your 3D models by up to 100x their original size, without compromising on quality with the echo3D Ultimate Compression©.

FUNCTIONS

- ☑ Collaborate with your team, improve their workflow, and minimize errors

- ☑ Save time and money on hosting 3D content and maintaining your asset library

- ☑ Convert 3D models to other file formats and optimize them for real-time streaming

- ☑ Integrate with any platform or system with our open API and multiple SDKs

- ☑ Set up echo3D on your existing infrastructure

FEATURES

- ☑ Access management to define permissions and roles for handling content

- ☑ Version control to save new versions and restore previous versions of 3D models

- ☑ Asset hierarchy to organize 3D assets within projects and subprojects

- ☑ Advanced analytics to track how users interact with your 3D assets

- ☑ Repository of over 750K free 3D models

A CENTRALIZED SYSTEM FOR YOUR 3D ASSETS
