

Safety Today

Low Engagement

Paper-based

Passive, ineffective learning

Data is all post-incident

Personalization

How does safety affect me and my loved ones?

Mindset

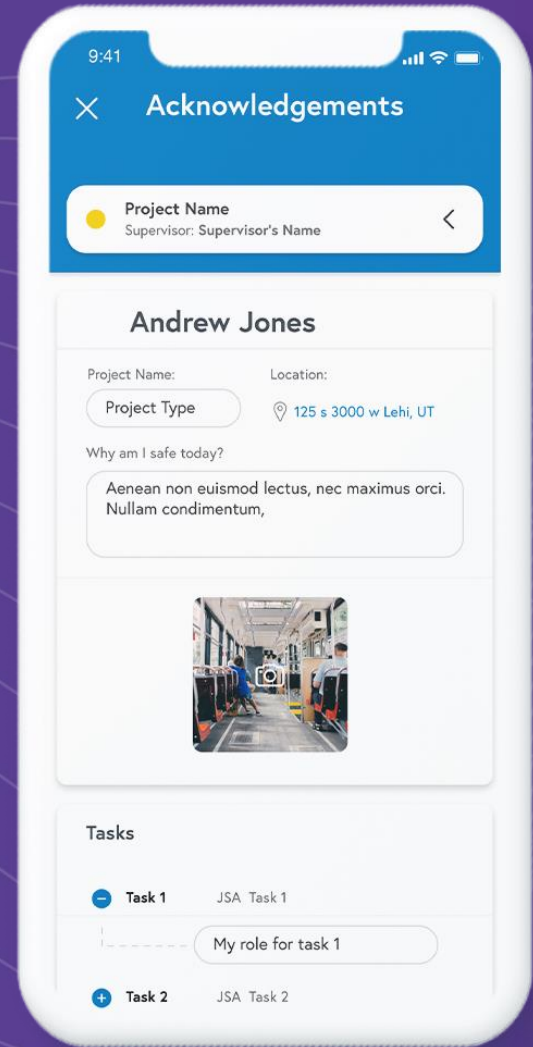

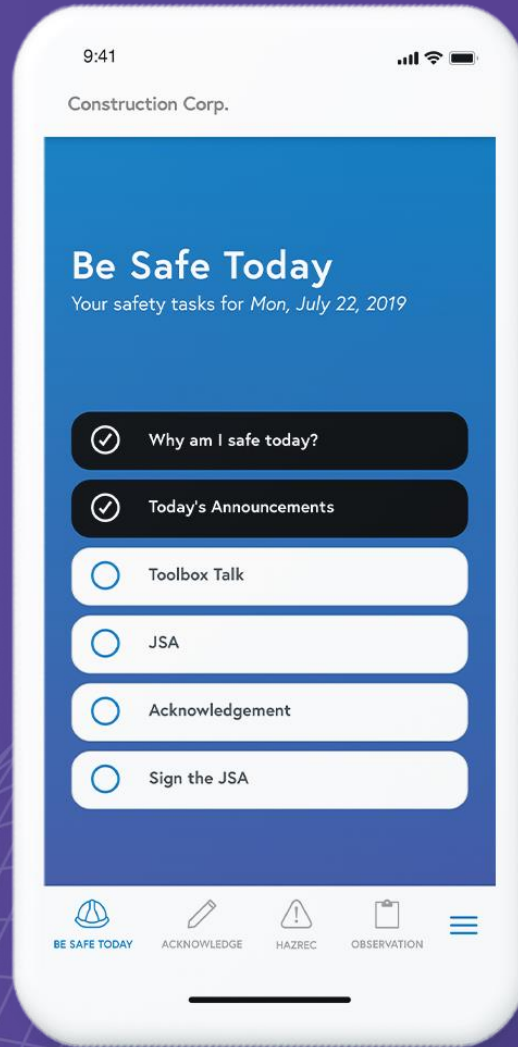

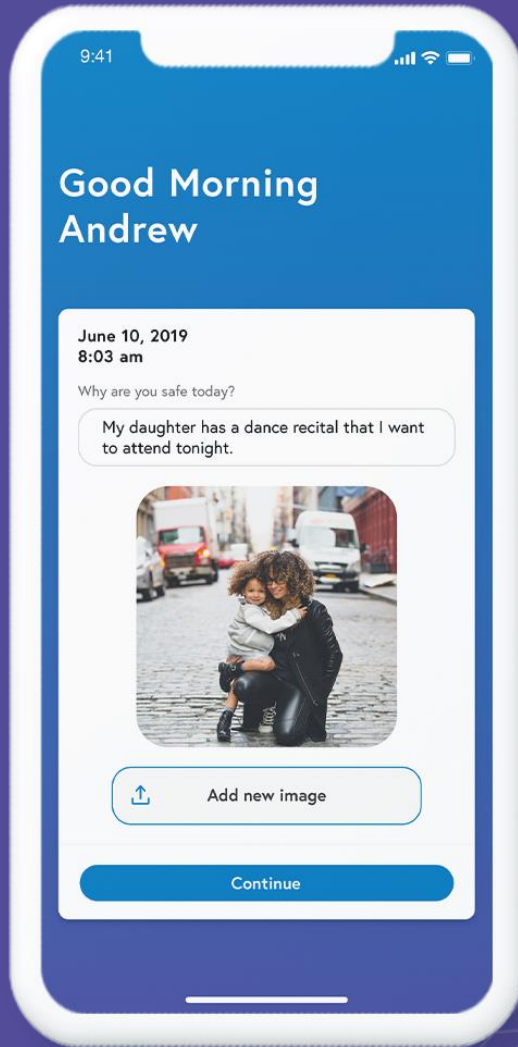

What am I doing today → Tasks, Hazards, and Controls

Culture

Drive safety culture throughout the entire organization

Using Artificial Intelligence to Reduce Injuries and Save Lives

Gather Data
(Hundreds of daily data points)

Identify incidents
before they happen
Make
recommendations

Artificial Intelligence

Get smarter through
deep learning

Analyze results

It works!

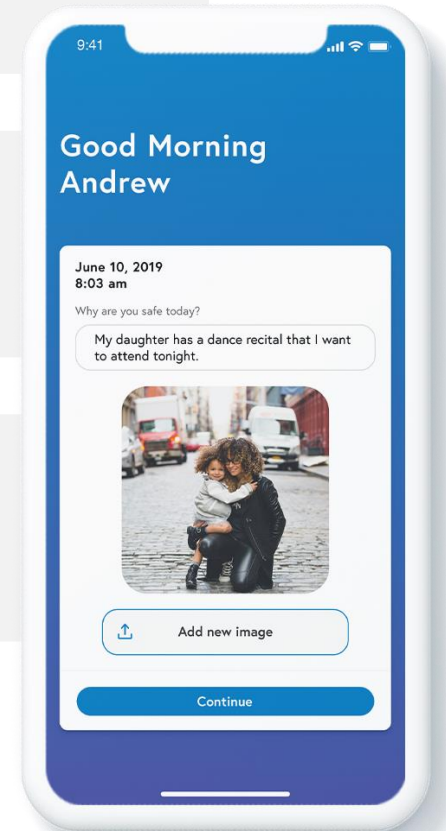

Proven over 5 years

70% reduction in safety claims costs

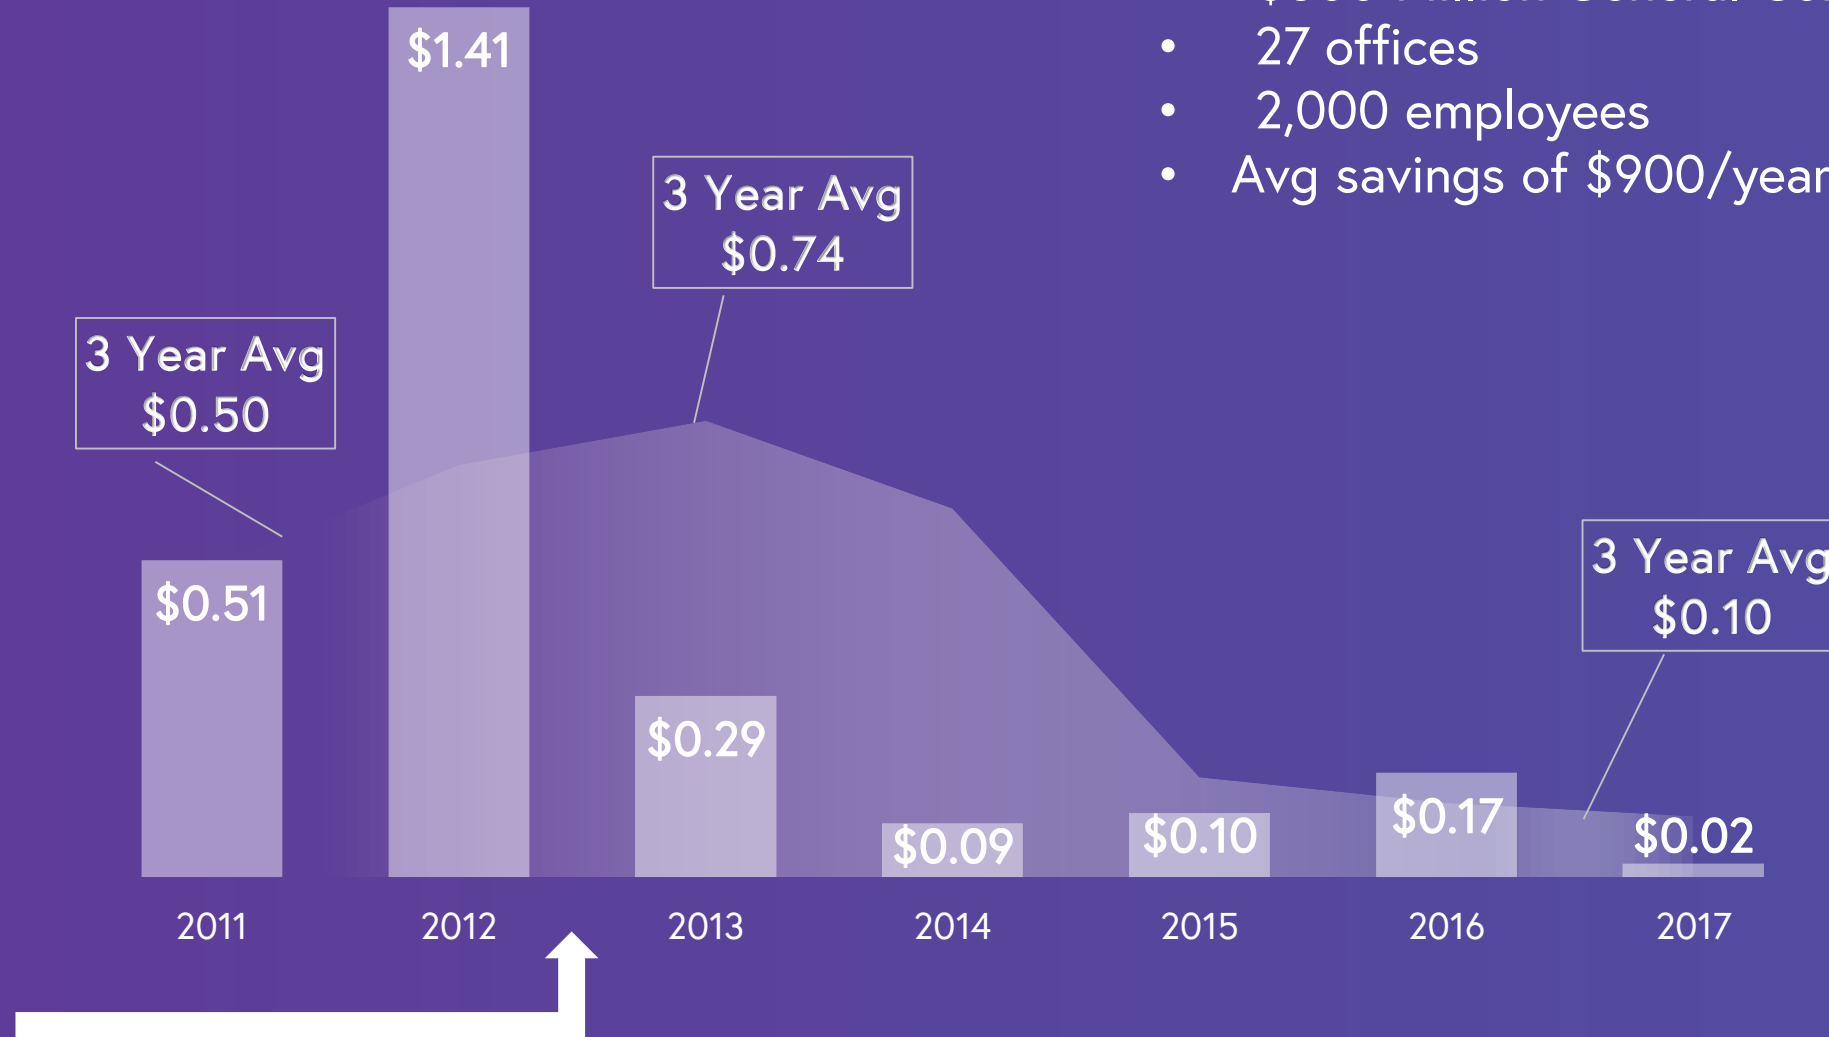

Changed culture

Claims/losses Per Man Hour

- \$500 Million General Contractor
- 27 offices
- 2,000 employees
- Avg savings of \$900/year/employee

Implementation

Details available under NDA
