

Attendance Management System

Attendance Management System

Managing attendance can be a time-consuming and challenging task for educators, but it's essential for effective classroom management. QuickSchools' Online Student Information System provides a simple solution to this problem with its easy-to-use and comprehensive attendance management system.

The online student attendance system is designed to make the process of recording attendance quick, accurate, and error-free. You can mark a student's attendance with just one click on the colored chart, and the information can be shared with parents in real-time through our cloud-based online school management system.

With our attendance management system, you no longer have to deal with the hassle of traditional attendance books that are hard to read and can be prone to errors. Our online system ensures that attendance records are accurate, up-to-date, and readily accessible to both educators and parents.

Easy to Read Pages

Our online school management system offers an improved way to manage attendance charts. The attendance chart features colorful headers, wide shaded rows, and a clean large font, making it easier for teachers to read. The system allows for more efficient management of attendance with a simple click of a button to mark a student's presence or absence. This eliminates the need to make small marks in tiny squares, resulting in more accurate attendance records. The bright and clean pages of the attendance chart make it easy for teachers to maintain and manage attendance records with ease.

Online Parent Tracking

Parent Portal, without any further action required. This way, parents can check their child's attendance status daily, weekly, or even period-by-period to ensure they are attending their classes. By keeping parents informed and involved in their child's education, QuickSchools encourages active participation in the learning process.
