The screenshot displays the EDUPAC software interface. At the top, it shows the date range '13 - 17 August 2012' and a view selector set to 'Work Week'. Below this is a calendar grid for August 2012, with dates 13 through 17 highlighted. A sidebar on the left contains a navigation menu with options like 'Management', 'Setup', 'School Information', 'School Governance', 'School Documents', 'Year Planner', and 'Security'. A dropdown menu is open under 'Management', showing 'Manage User', 'Manage Portal User', and 'Manage Portal User Variable Groups'. Below the calendar is a 'School Document > Document' table with columns for 'Type', 'Display Name', and 'Document'. The table lists three documents: 'National EMIS Contacts' (Admin type), 'Financial Risk Assessment' (Finance type), and 'e-SAMS Software Prospectus 2016' (General type). To the right of the document list is a smaller calendar for September and October 2012. At the bottom right, there is an illustration of a laptop, tablet, and smartphone connected to a Wi-Fi network, with a padlock icon nearby.

We have supported Educational Libraries for more than 20 years.

With features refined over 20 years and technology that facilitates unsurpassed customisation, Edupac satisfies the unique management requirements of libraries of all sizes and specialisation.

Using the Edupac LTSM, Text Book and Library Management system you enable the:

- Discovery of books and learning resources from our on-line central repository with easy search filters and multiple topic key words.
- Effective management of all library services, e-books and digital and curriculum resources, to make your institution a centre for innovative learning.

Our software is developed to meet the specific needs of libraries supporting engagement with students and the entire school community.

- **Acquisition:** Book orders, receipt and invoices related to quotations, procurement and purchase of items.
- **Catalogues:** Dewey Classification, categorizing and index of all materials stocked.
- **Circulation:** Audit trail for inventory issued, reserved, damaged and written-off.

Important Features:

- **Bar Code Technology:** The software is able to create, print and read barcodes. This enables the effective tracking of all the materials.
- **Multimedia:** The software provides a feature to upload item images in your inventory if it is an e-book, DVD, CD, magazine or LTSM.
- **Printing:** The printing of barcoded User ID cards is a great plus. This automates the history of every member and keeps track of materials issued and returned.
- **Topic search:** Unlimited topics and key words can be assigned to an item.

Reliable Tswela School Timetable Software

Use our fast, easy and reliable timetable software for your school. Timetabling could not be easier with our simple colour-coded steps! Not only does Tswela Timetable Software provide a secure framework to get your school Timetable up and running quickly, but human support is only a phone call away.

Timetable Helpdesk

Our capable helpdesk consultants will provide all the software support you might need, every step of the way. Their knowledge is backed up by a strong team of software engineers who is dedicated to the best Timetable and Software Support in the industry.

Fastest Integrated Timetable Software

Why is our timetable software so fast?
At Tswela we use SQL database technology that makes data mining super fast. This means that Timetable data is indexed to ensure that data retrieval is quick and efficient. The Tswela Timetable is 100% integrated with Edupac SchoolLink and absorbs new information automatically. No manual data imports of new teachers, classes or subjects for your timetable is necessary.

- User-friendly and Online
- Multi-user data entry and usage
- One input screen for allocations and selection.
- Detailed timetable help videos and documentation
- Timetable result options can be stored and compared

We provide a virus-free data and application environment, secure back-ups and 100% uptime on the Tswela File Server.

Efficiency at it's best!
