Azure Migration Challenges

Migrating any platform on a cloud can be a tricky process as it involves cautious consideration of a business's framework, process, and implementation which allows the digitizing of projects of a firm.

CHALLENGES

There are numerous challenges in migrating to a cloud platform related to process, adaptability and security. Also, there are tough competition from other platforms like AWS.

IDEAL SOLUTION

Our Azure Migration solution offers access to a broad array of business-critical capabilities that drive ROI in ways that other public cloud providers are unable to match.

DESIRED OUTCOMES

Faster infrastructure and reduced impact of delays on the business, significant CapEx savings by eliminating the hardware, software, storage and data center space for any Solution

eGeneration Ltd.

MIGRATION TO AZURE

Giving your business the power to achieve more.

We provide end-to-end service personalized for SAP applications which consider the entire attributes required for the transformation including consulting, preparing, designing and migration.

Cost Efficiency

Migrating their platform to Azure allows a firm to decrease their IT infrastructure costs by 45% to 75%

Reduced Risks

Risks are minimized caused by unanticipated events.

Agility

IT infrastructure that is capable of adjusting to a firm's requirements.

Security

Migration to Azure assures that a firm's applications operate securely and promotes a reliable platform

Productivity

Azure is a powerful platform that connects your platform to other technologies such as Office 365, Data Analytics, IoT

eGeneration Ltd. Migration to Microsoft Azure

With support from Microsoft Bangladesh, eGeneration Ltd. has teamed up to provide the needed Migration to Azure solution offering a robust, innovative, scalable and flexible digital platform service based on the best and most secure cloud technology.

We aim to provide customers with the best cloud experience.

Microsoft Azure gives you the flexibility and agility to adapt easily into the cloud environment with no downtime and robust security

Continuous Support

We provide end to end implementation, support and training services

With the help of Microsoft, we are capable to provide any level of consultancy and support needed for your enterprise.

Customer success: Epyllion Group Migrates their business Applications and Databases Server to Microsoft Azure

While most of the local ERP users of Bangladesh lean towards their own infrastructure for hosting. We, eGeneration have successfully converted Epyllion, one of the leading conglomerates in Bangladesh from own premise to Microsoft Azure by proving our competitive advantage.

Epyllion Group

"Our close collaboration with eGeneration and Microsoft has really helped Epyllion soar. With Azure Cloud Services, we can continuously expand our digital platform without substantial infrastructure upgradation. Thanks to eGeneration for their relentless support."

-- Mr. Shamsul Karim Rumman, Sr. Manager, IT

NCC Bank

"It is our immense pleasure to extend our appreciation to the dedicated project team of eGeneration for their proactive contribution in completing the POC of Azure in NCC Bank. We look forward to start with the services very soon"

-- Kazi Jonayed-Un Naby, AVP ICT
