

# MONITORING INSIGHTS

KEEP YOUR DIGITAL CUSTOMER SATISFACTION AT ITS PEAK

## have we got news for you

A critical failure can leave a lasting, negative impact on customer experience, the brand perception and the bottom line. Hence the functioning of all key processes of websites and applications is essential for a top notch customer experience.

Eggplant's non-invasive Monitoring Insights tool can assist you with customized views on the performance of your technology so you can address any issues before they snowball. Our consistent, repeatable testing and user-centric approach gives you assurance that you will know in real-time when a problem occurs.

## 3 easy steps

### 1 Get access

Free Monitoring Insights license entitles you to 5 user journeys and 3 page monitors

### 2 Get skilled

Expert setup and a tailored demo by a Monitoring Insights guru

### 3 Get going

Support from our team for implementation and analysis of results  
A recommendations report and walkthrough at the end of your trial

## say hello
