eGroup | ENABLING TECHNOLOGIES

together we make IT happen

MODERN DATA PROTECTION

Develop a comprehensive data protection strategy for the cloud, data center, and your "as a service" solutions with eGroup | Enabling Technologies' Data Protection Assessment and Data Management Solutions.

Your only true protection from modern threats is to be able to recover everything, fast.

eGroup | Enabling Technologies ensures your data is protected, recoverable from threats, and available when you need it.

With eGroup| Enabling Technologies' Comprehensive Data Protection Assessment, we will provide you with the speed and certainty your business demands to stay up, running, and results-driven. Our team of experts will engage with your team to understand your current data protection solution, as well as your unique business requirements, to deliver a data protection plan, 5-year total cost of ownership, and an implementation roadmap to ensure you have...

ALL THE INFORMATION YOU NEED TO PROTECT YOUR DATA ACROSS ANY PLATFORM.

> " The communication and results delivered by eGroup's team were phenomenal. This project was excellently managed and implemeneted. "

Data Protection Solutions

DATA PROTECTION ASSESSMENT

We will work with your team to assess, plan, and develop a data protection strategy that ensures your protection.
- Ensure Strategy Aligns with Business Goals
- Protection in the Data Center, Cloud, or SaaS solutions
- Meet Recovery Time and Recovery Point Objectives (RTO/RPO)
- Detailed Data Protection Design, Diagram, and 5 Year Sizing
- Cloud Storage/Archive Opportunities
- 5-Year Total Cost of Ownership

DATA CENTER PROTECTION

Our solutions deliver award-winning data protection in your data center to allow for:
- Comprehensive Data Protection
- Rapid Recovery in Seconds/Minutes
- Immutability from Ransomware
- Intelligent Threat Analysis for Malware and Sensitive Data
- Microsoft SQL Server, Oracle, and other native protections
- 100% Policy Driven

MICROSOFT AZURE PROTECTION

Our solutions protect Microsoft Azure native workloads through a single pane of glass for:
- Microsoft Native VM Protection
- Microsoft Azure Cloud Archive
- Microsoft Azure Recovery from the Data Center

MICROSOFT 365 PROTECTION

Our solutions protect Microsoft 365 with no infrastructure requirements to allow malware/ransomware/malicious use protection for:
- Exchange Online
- OneDrive
- Teams
- SharePoint Online
- Managed Protection and Bring Your Own Azure Storage options available

Gain the expertise you need to manage your data protection, ensuring your organization can recover from threats quickly with eGroup | Enabling Technologies' Managed Data Protection services.
