

ENSURE USER ACCESS TO APPLICATIONS AND DATA THEY NEED, ON TIME, ALL THE TIME.

with eGroup Enabling Technologies, Citrix, and Microsoft Azure

Leverage the power of Microsoft Azure to quickly and easily deploy hundreds or thousands of applications and desktops as needed without the burden of infrastructure management. Don't let new applications or business use cases be delayed by slow infrastructure provisioning. Quickly, securely, and predictably provision the necessary resources to help with user adoption with Azure. Utilize the cloud and eGroup Enabling Technologies Services to remove management overhead, focus only on the application workloads, and predictably turn up and down resources based on specific criteria to help with resource utilization.

LIMITLESS PRODUCTIVITY KEY BENEFITS

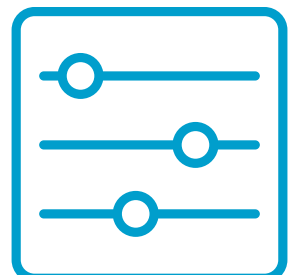

FLEXIBILITY

The capacity you need when you need it. Expand or contract on demand, scale up to meet the challenge, and scale back to reduce the cost.

SECURITY

Information never leaves its secure location in your data center or cloud. Seamless backup, recovery, and intrusion detection ensures it is always available.

RESILIENCY

Your data is effortlessly protected in redundant locations across the country, continent and globe.

PRODUCTIVITY

Your users are your business, keep them productive with a seamless user experience on-premises, in the cloud, and on the go.

YOUR BUSINESS NEVER SLOWS

Whether Your Apps Are On-Prem Or In The Cloud, Your Apps Run Whenever and Wherever They Need To With A Single Management Interface

EXTEND TO THE CLOUD

Provide unified, integrated experience for both Administrators and End-Users between On-Prem and Cloud.

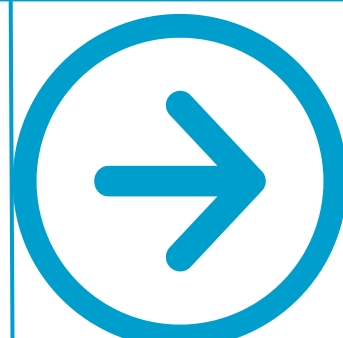

HOST IN THE CLOUD

Flexible deployment of extending or hosting, managed by IT.

CLOUD-AS-A-SERVICE

Shift CapEx to OpEx for more consistent expenditures and walk away from hardware budgets.
