MASTER YOUR MICROSOFT 365 INVESTMENTS

with a Microsoft 365 Productivity, Security & Compliance Roadmap

Ensure you get the most out of your Microsoft 365 investment with our Productivity, Security, and Compliance Roadmap. This personalized engagement will help your organization maximize productivity, strengthen security, and ensure compliance. Whether you currently have or are evaluating Microsoft 365 solutions, this roadmap will provide you with a plan of action, gap analysis, and third-party consolidation plan that ensures you have a clear plan of action and budget to maximize your investments in Microsoft solutions.

MICROSOFT 365 WORKSHOP

During the workshop, we will explore your business needs and user use cases to facilitate actionable discussions on how Microsoft 365 capabilities provide secure and compliant productivity for your users.
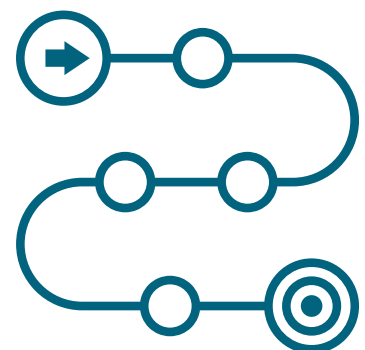

- Enhancing Productivity
- Governance, Security, and Compliance Best Practices
- Enhancing Security Through Zero Trust
- Third-Party Vendor Consolidation

TECHNICAL DEEP DIVES

Flexible sessions designed to take a deeper look into the identified priorities alongside our subject matter experts. Sample Topics include:

- Managed Detection & Response (MXDR)
- Identity and Access Management
- Endpoint & Mobility Management
- Secure Collaboration
- Meetings, Rooms, & Calling
- Business Process Automation
- Data Security
- Generative AI
- Organizational Change Management
- and More!

ROADMAP DEVELOPMENT

Our team will compile the information collected throughout the sessions, and present an actionable roadmap based on the agreed-upon direction of your organization.

- Budget for Desired Actions
- Licensing Requirements for Desired Actions
- Opportunities for Cost-Savings & Consolidation
- Actionable Next Steps for Primary Objectives

DEVELOP ACTIONABLE PLANS FOR AREAS SUCH AS:
