STRENGTHEN YOUR ORGANIZATION'S APPROACH TO CYBERSECURITY

WITH eGROUP ENABLING TECHNOLOGIES AND A MICROSOFT CYBERSECURITY ASSESSMENT

This assessment is designed to help you understand the importance of security and how to protect your organization from potential threats. We will also discuss the latest security threats so that your organization can stay aware and ahead of the curve.

UNDERSTAND THE THREAT LANDSCAPE

Engage in hands-on activities to help you gain an understanding of common threat scenarios.

DOCUMENT CURRENT DEFENSE

Get a documented status of organizational defenses against common threats.

CREATE A PLAN

Walk away with actionable next steps grounded in industry-accepted benchmarks.

IMPROVE SECURITY POSTURE

Better understand how to accelerate your security journey using the latest Microsoft Security tools.

IDENTIFY A BASELINE OF YOUR ORGANIZATION'S CYBERSECURITY POLICIES

→ USE MICROSOFT SECURITY CAPABILITIES TO GENERATE AN OVERVIEW OF AREAS OF FOCUS

→ MAP BASELINE AND SECURITY SCAN RESULTS TO COMMON THREAT SCENARIOS

→ WE'LL WORK WITH YOUR TEAM TO DEVELOP JOINT PLANS AND NEXT STEPS

Human-operated ransomware and data leaks from insider threats are two of the most prevalent security risks that organizations are facing. Over 98% of these attacks can be prevented by having basic security hygiene processes and solutions in place. How aware is your organization of the policies and activities that can help to strengthen your cybersecurity posture?

IMPROVE YOUR SECURITY AWARENESS WITH A CYBERSECURITY ASSESSMENT

Organizations today are addressing security threats from numerous locations while having to work with multiple stakeholders both within and outside of their organization to maintain compliance with various industry and regional regulations. Get a jump start on improving your security posture, with Microsoft Security solutions, by scheduling a Cybersecurity Assessment.

We can help you develop a strategic plan customized for your organization based on the recommendations of Microsoft experts in security. Gain awareness of the current state of your security posture aligned to industry benchmarks, followed by support on how to remediate vulnerabilities and upgrade your security posture for the long term.
