Senior Living Analytics

Work smarter, adapt faster, and unlock the power of your data

with a streamlined solution built for today's data-driven landscape.

At Eide Bailly, we understand the unique challenges of Senior Living, Home Care, and Hospice organizations—where census fluctuations drive staffing, referrals, costs, and ultimately, the quality of resident care. With our Sr Living Analytics Implementation, we help you centralize EHR, ERP, LOS, time-clock, and location data to unlock powerful, census-driven insights that go far beyond same-day snapshots.

With Senior Living Analytics, senior care organizations can finally move beyond fragmented systems and reactive decisions—unlocking the power of unified, census-driven insights to deliver smarter staffing, stronger financial stewardship, and better care outcomes.

Who We Are

Eide Bailly helps businesses work smarter — financially, operationally, and strategically. As a Top 20 CPA firm with clients in all 50 states, we bring practical expertise in tax, audit, advisory, and technology to improve performance, reduce risk, and support growth.

Is Senior Living Analytics right for you?

Sr. Living Analytics is a good fit for your organization if:

- You operate in Senior Living, Home Care, or Hospice

- You have fluctuating census levels leading to nurse shortages or imbalances

- You have multiple systems (EHR, ERP, LOS, time-clock) but lack unified reporting

- You need actionable, trusted analytics to drive better care and financial stewardship

Implementation Process

Initiate
We start with a scheduled kick-off call with your team for introductions, process review, and expectation setting.
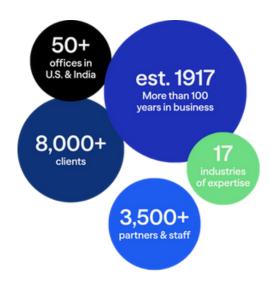

Plan
We'll work with you to finalize the project scope, timeline, and requirements for both our team and yours to stay on schedule.

Execute
Your core applications will be set up via hands-on system training. You will receive bi-weekly project updates to track progress.

Go-Live
From start to finish, our Senior Living Analytics implementation takes 5-6 months, on average. After go-live, we will provide you with support and assistance as your organization grows of your needs change.
