

Simply BC for Nonprofits: A Powerful Scalable ERP for the Now and the Next

About Simply BC

Work harder, adapt faster, and perform better with a cost-effective ERP solution designed to grow with you.

Recently named one of the best Enterprise Resource Planning (ERP) systems by Forbes Advisor, Microsoft Dynamics 365 Business Central is a powerful, comprehensive business management solution for organizations of all sizes. However, the extensive functionality of D365 BC can feel like too much too soon for small, emerging, or start-up organizations.

For Nonprofits seeking a powerful ERP solution without the complexity, we've created Simply BC, a rapid implementation of the core GL, AP, and AR functionality of D365 Business Central. With Simply BC, your growing organization can get up and running quickly with the features you need now and the scalability you'll want later.

Who We Are

We're a business advisory and accounting firm, helping our clients embrace the opportunities that change and innovation bring to the evolving business landscape. We offer our clients inspired ideas and solutions to tackle risk and spur growth.

Is Simply BC Right for You?

Simply BC is a good fit for your organization if:

You're a small, emerging, or start-up organization

You have high growth goals and targets for the future

Your operations are based in the U.S.

You have less than 20 users and available technical staff

Simply BC for the Now and the Next

Simply BC is designed to get your system up and running quickly with core functionality. Even with limited configuration and basic functionality, Simply BC is a high-value ERP designed to grow with your organization. With this solution, you'll have access to:

- Financial reporting with flexible ledger
- Customer invoicing and cash management
- Vendor and bill management
- Powerful searches, workflow, and personalization tools

Implementation Process

Initiate

We start with a scheduled kick-off call with your team for introductions, process review, and expectation setting.

Plan

We'll work with you to finalize the project scope, timeline, and requirements for both our team and yours to stay on schedule.

Execute

Your core applications (GL/AR/AP) will be set up via hands-on system training. You will receive bi-weekly project updates to track progress.

Go-Live

From start to finish, our Simply BC rapid implementation takes three months, on average. After go-live, we will provide you with support and assistance as your organization grows or your needs change.
