

M365 Copilot

MW-M365Co

November 2023

Our Microsoft 365 Copilot Services

We offer a comprehensive advisory service built on first-hand experience with Copilot and our partnership with Microsoft. Our approach is tailored according to your individual organisation's needs in stages to help you get ahead of your competitors and leverage the power of Copilot and all the benefits it brings.

Microsoft 365 Copilot Advisory + Readiness

- Lead business transformation conversations with Copilot
- Assess licensing and technical readiness
- Assess customer data protection and governance
- Showcase the benefits of Copilot
- Identify high-value scenarios

Microsoft 365 Copilot Deployment

- Close readiness gaps
- Build a business case
- Plan customer success with Microsoft account teams
- Evaluate Microsoft 365 tenant usage and configure security and compliance
- Launch pilot

Adoption & Change Management

- Drive change management programs
- Establish employee communication channels
- Measure business impact
- Conduct employee training
- Continuously support and optimize

M365 Copilot Optimised Journey

Our approach is to optimise the Copilot journey by ensuring that when enabling Copilot our customer are aware of the potential risks and impacts an Al tool could have on over sharing of content.

Enterprise Chat

M365 Copilot Ready

Minimum requirements to enable Copilot

Work streams can run in parallel

Copilot Journey

If information management is poor implemented or non-existent, sensitive content will be unknowingly exposed. We recommend all content is indexed by Semantic indexer using the data security model implemented within your M365 tenant.

Highly recommended and focused on data compliance,

preventing over-sharing, and potential internal data leakage

M365 Copilot Readiness - Offer Timeline:

Assess

Ignite

Advise

Objectives

Assess and prepare for M365 Copilot deployment through interactive workshops and data-driven insights.

Key focus on the following areas:

- · Information governance,
- Information Management (oversharing of data)
- Organisational change management
- M365 environment readiness

Objectives

Ignite the Organisation to transform productivity with AI-enhanced employee experiences by unleashing creativity, unlocking productivity, and leveling up skills.

Workshops, demos and examples of:

- How Copilot works
- How Copilot unleashes creativity, productivity and skills
- How Copilot solves "Day in the Life" scenarios

Objectives

Develop a roadmap to implement recommendations based on data driven insights and prioritised business scenarios.

Define next steps, timeline and a plan to develop and implement an optimised M365 Copilot solution.
