STREAMLINE PRODUCTION

Optimize, enhance and control

AUTOMATE PROCESSES

Automate every possible production

REDUCE COSTS

Enjoy the benefits of a cloud based service

GROW DONOR BASE OPTIMISE RETENTION

Predictive analytics and persuasion modelling

From cost pressures to increasing regulations to managing the supply chain and donor basis. We are targeting innovative software solution designed to support the operations, helping you achieve efficiencies and manage costs, while maintaining compliance and safety.

Flexible modern solution

Focus on BUSINESS

Unique architecture that mixes agile approach and multi-cloud powered architecture.
FOCUS ON RUNNING YOUR BUSINESS NOT MAINTAINING SOFTWARE AND DEVICES
Dynamically deploy and run either if you are upgrading from an existing solution or creating a new center.

COMPLEX SOLUTION

Manage a single center or a large chain easily in one place

PLATFORM INDEPENDENT

Runs on PCs, tablets and smartphones

THIN CLIENT ARCHITECTURE

No install packages, libraries, complicated updates and service onsite

INCREASED PRODUCTIVITY

Spend your time using the functionality you need. NOT solving IT

CLOUD SOLUTION

Lower costs, 24x7 access, automated updates, security, geographic clusters

DESIGN

Smooth customizable design

DESIGN PATTERNS

PLASMA STREAM

1

FRONTEND

01 CUSTOMIZABLE

Maintain your corporate identity and customize the frontend layers according to your needs. Or enjoy our preset styles

BE YOURSELF

02 CLEAR MODERN MOTIVES

Our designers are ready to introduce you a customization of your own for free as a part of our welcome package'
