PAYMENT SUCCESSFUL

PayFlow™ Is a Complete End-To-End Invoicing and Payment System

What is PayFlow?

PayFlow™ is a complete end-to-end invoicing and payment system that is considered a strategic product for suppliers and merchants. It provides two portals which act as a channel between merchants and their suppliers \ beneficiaries. This enables merchants pay their suppliers' invoices through popular payment methods such as VISA, Mastercard, (Saudi Arabia) Mada, and digital wallets like PayPal.

PayFlow™ is a light, robust, secure, and high-throughput software engine, extended with various specific and generic adapters to several payment providers and capable of integrating with organizations whether internal ERP systems exist or not through online integration services.

Why PayFlow?

Provides Comprehensive Set Of Services

Invoicing Services

- Create Invoice
- Approve Invoice
- Batch Upload Invoices
- Invoice Management

Payment Services

- Single/ Bulk Invoices upload
