Elastic Certified Engineer Exam

Certification for experts who can install and manage clusters, as well as develop search solutions.

Course summary

To become an Elastic Certified Engineer, you will need to pass our hands-on, performance-based exam. The exam requires completing a series of timed, real-world tasks on Elasticsearch clusters in a proctored environment. We encourage you to review our **Certification FAQ** which contains our "How to prepare" webinar before attempting the exam.

People who have passed the Exam will receive a unique Elastic Certified Engineer URL badge to post on their social media or show their management.

If you have any questions please email, **certification@elastic.co**.
