ELASTIC CLOUD CUSTOMERS

Accelerate your success

Boost services are designed for scale and provide common activities to help you get the most value from your Elastic Cloud deployment. We offer a variety of economical services to accelerate your adoption of Elastic. Below is an example of, but not limited to, some of those common activities.

[Contact us to learn more →](#)

New use case launch

Accelerate the development of your architecture and implement a new environment with best practices aligned to your business requirements

Elastic Upgrade services

Unlock all the latest features by planning, strategizing, testing, and upgrading legacy deployments (v5.x+) to the current version

Platform Expansion

Plan for the road ahead by expanding your environment to meet your data volume, growth needs, business requirements, and other critical factors

Platform optimizer

Scale your workloads and maintain optimal performance by evaluating your architecture, capacity planning, data modeling and more

Healthcheck

Keep your clusters green by assessing the architecture, configuration, and diagnostics of your Elastic Cloud environment
