

Envision your Apps in Microsoft Teams using Power Platform

5'800.- CHF

Price is exclusive of VAT

Give everyone the power to innovate

- Discover **intelligent** insights in diverse data
- Build **low-code solutions** to business challenges
- Streamline **processes with no-code** automation
- Handle routine inquiries at scale with **no-code chatbots**

What's included?

1. We start by a **workshop**⁽¹⁾ to discover your architecture, applications and licenses
2. We help you **identify the applications** that fit your needs
3. We provide a **proof of value** of specific use case⁽²⁾: digitalize an internal process of yours
4. We provide you with a **report**⁽³⁾ and a costing for the use of Microsoft Teams as **Power Platform application hub**

⁽¹⁾ Restricted to a maximum of 5 persons with a good overview of the key business processes

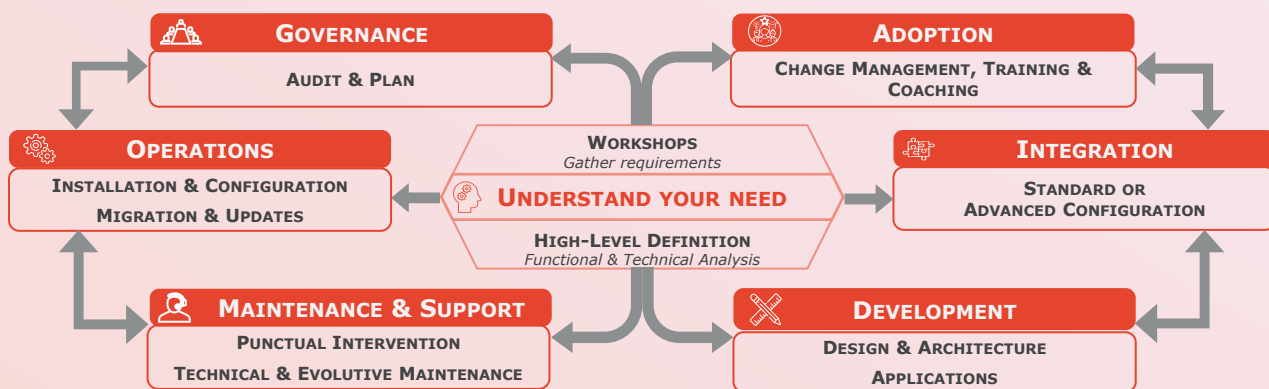

⁽²⁾ The use case is an exhibit implementation of the build, and integration of an applicative screen with an automated process running, covering one of your needs, all embedded in Microsoft Teams. The implementation time is initially estimated from 6 to 8 hours.

⁽³⁾ Identify processes that can benefit from Power Apps based on current issues; Estimate the implementation effort in an ROI approach and define a low code governance (define implementation roadmap based on business cases, provide support in the realization).

What do you get?

- ✓ Discover your Microsoft Teams usage maturity
- ✓ Perspective on its implementation in your context
- ✓ A one-stop-tool for your employee daily work
