## ELCA Azure and Microsoft 365 Security Services

Thinking of moving to the cloud or already there?

It's never too late to improve your **security posture!**

ELCA's Azure and Microsoft 365 Security Services offer has been developed for you so that you can feel safe about your data hosted in Azure or Microsoft 365. Whether you already moved to the cloud or just decided to do so, we can work together to make this journey a complete success. For a smooth and secure migration to Azure, you can even combine this with our ELCA Managed Services offer to get an all-in-one package and a single partner to discuss with.

### Your challenges

- ✓ Customers' lack of internal resources and/or knowledge about security
- ✓ Market pressure to go to the cloud but fear of sacrificing security
- ✓ Need to understand the risks associated with cloud hosting
- ✓ Requires a partner who has the expertise to implement state-of-the-art security in Azure and Microsoft 365
