

XOVOX

UNLEASH YOUR DATA

XOVOX offers accurate retrieval of voice recordings from product-specific formats commonly used by enterprise platforms like NICE and Verint.

We help any organization that records and retains telephone calls and chats, including financial services firms, insurance companies, energy traders, and government agencies.

Our foundational work helps you upgrade your recording platform, maintain compliance readiness, execute eDiscovery productions, and enable analytics.

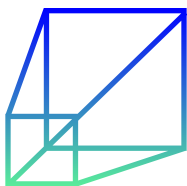

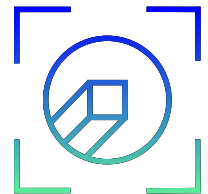

XOVOX **XTRACT**

Our flagship service retrieves valuable data from outmoded voice archives, regardless of formatting.

XOVOX **XPORT247**

Ongoing conversion of your voice data.

XOVOX **XPAND**

Convert your legacy data and make it available in a new environment.

XOVOX **CUSTOM SERVICES**

Tailor-made solutions to your data problems.

Whether you are upgrading to a cloud contact center (CCaaS), retrieving evidence for litigation, or using any data analytics platform, you need to access your audio data. XOVOX gets you there. We leave no data behind.
