# ELEKS Data Science Platform

Scalable. Flexible. Secure.

## PROBLEM

Implementing a data science model is a complex, multi-stage process involving:

Guaranteeing **flexibility, availability, security,** and **resilience** isn't easy. By using eDSP, you'll have a single touchpoint for model management, and an ability to choose which

routine tasks can be automated, making routine interactions easier, faster, and more reliable. Then you'll have to repeat the cycle for each new model you create.

Companies that invest in AI technologies report an average

# 15%

increase in productivity

according to "AI transforming the enterprise" report by KPMG

## SOLUTION

ELEKS Data Science Platform (eDSP) lets you manage all your data science models from one place, with significantly less effort. Using a simple web interface, you can integrate and monitor your models with ease, keeping them **scalable, adjustable** and **secure**. And with **streamlined integration**, you can start getting benefits from your model faster – refocusing your valuable resource on the core business.

**This translates to big savings in terms of time and money.**

eDSP is based on Kubernetes – the most widely-used container orchestration system.

**It's scalable, flexible and available anywhere: in the cloud, on-premise or via a private data center.**

## EDSP BENEFITS:

An **easily-to-customize analytics** platform based on open source products – each component can be tailored to your needs.

**Data source integration** for training and scoring with different RDBMS, Kafka, Amazon S3, Azure Blob, Data Lake and more.

**Straightforward creation of machine learning models** via AutoML – even with no previous data science experience.

A **simple web user interface** and command line for model management, all in one place.

**Preconfigured monitoring options** and dashboards.

**On-the-fly model updates** and versioning.

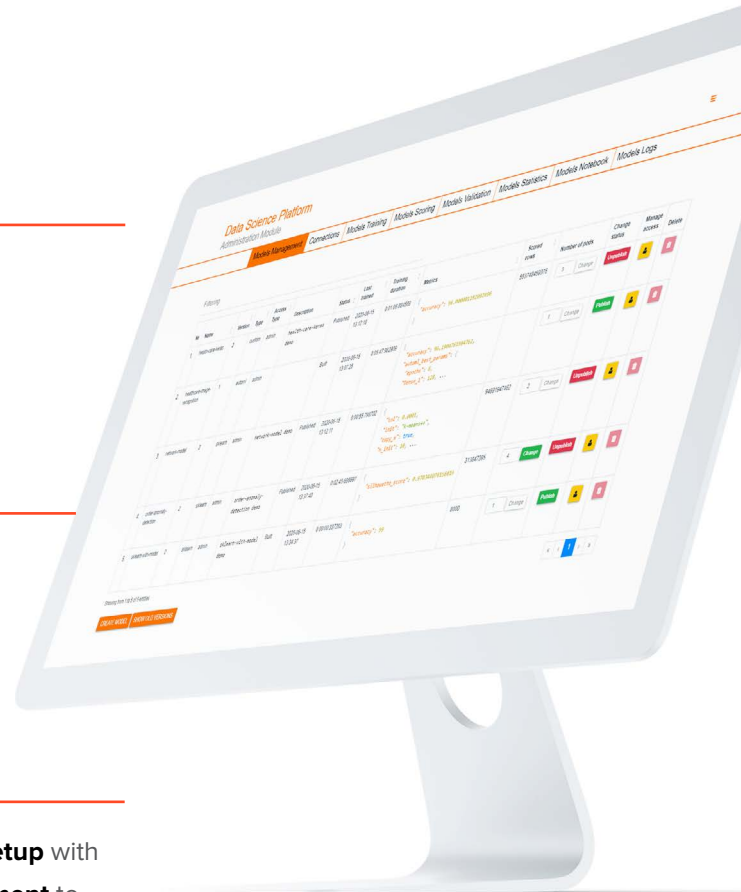

A **cloud-agnostic setup** with **automated deployment** to Azure, AWS, GCP and on-premise.

**Automated model scoring** that's also scalable and secure.

**Secure and scalable** model API that's ready to use.

**Simple functionality** for manual configuration and scheduled retraining.

**Restricted access** to resources and dashboards.

# Your Technology Partner for Software Innovation and Market-leading Solutions

**600+**

end-to-end solutions  
delivered

**90%**

of clients do more than  
one project with us

ELEKS is a Top 100 Global Outsourcing company that provides expert software engineering and consultancy services.

For over 28 years, we've been working as a software innovation partner with Fortune 500 companies, big enterprises and technology challengers.

**47.95**

Net Promoter Score  
(NPS)

A Top 100 Global  
Outsourcing Company

Our team of 1,500+ professionals offers a full range of IT services. The software products we build help the world's leading brands transform their businesses, increase their revenues and save development time and operating costs.
