Elekta ONE is your new comprehensive suite of connected applications designed to plan, manage and execute oncology specific workflows with ease.

Connecting your existing products to new innovative solutions, Elekta ONE helps you keep pace with fast changing technology and do more for your patients

Increase your productivity while facing the constant need for more complex workflows and personalized care.

Unified software experience

Streamlined workflows

Faster innovation

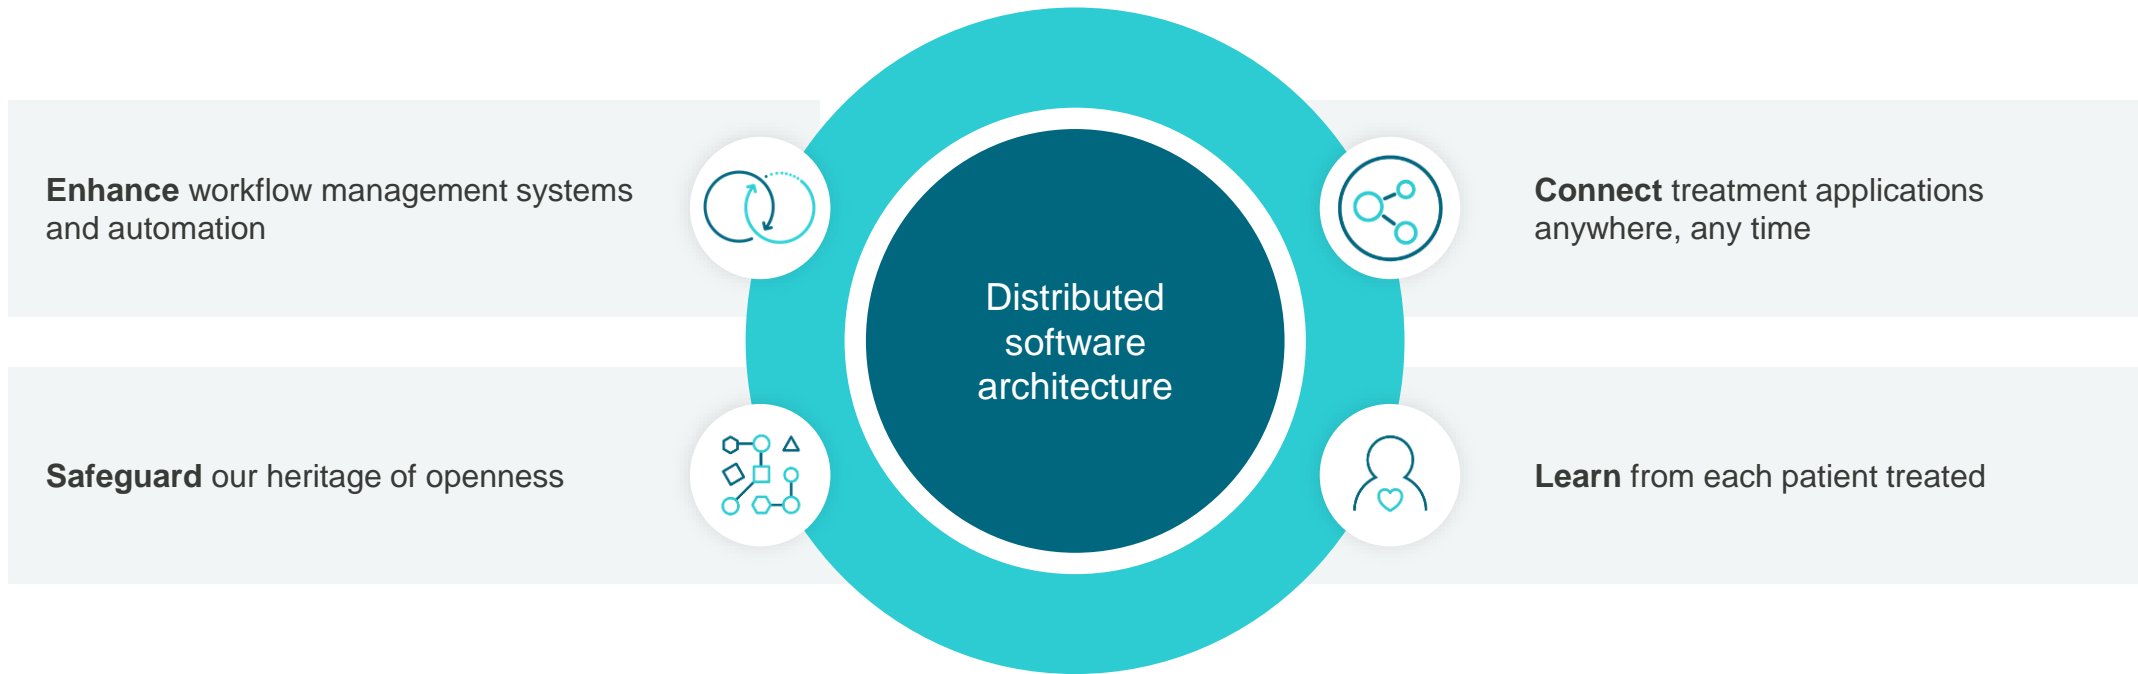

Elekta ONE

Data – Introduce a distributed software architecture, enabling enhanced data management and oncology care, powered by MOSAIQ

Workflows – Access the right data for the right patient at the right time and develop more automation in the repetitive tasks.

Applications – Connect all the tools you need to support the most advanced treatment techniques and make treatment personalization simpler than ever.

Outcomes – Learn from every patient treated with advanced analytics tools to optimize patient treatments, operational efficiency and financial performance

Open—Keep the freedom to choose the best solution for your clinic, at each step of the workflow.

Designed to help you...

“Easy to use, clear to understand and a vast improvement on what we are currently using!”

Dr. Russell Banner

Clinical Oncologist and Radiotherapy Lead
Southwest Wales Cancer Centre, Swansea, the UK

...Focus on care

Your time is valuable, and we believe it should be spent where it matters most: with the patient.

Embrace a seamless user experience

Our workflow-driven approach and integration between applications allow information to flow freely, giving you a seamless user experience.

Free up time for what's important

With enhanced automation in data capture and repetitive tasks, you can free up time to focus on value-add activities.

Connect anytime, anywhere

Mobile access and cloud-based solutions mean you have the freedom to work securely, connect and collaborate from any device, at any time and in any place.

...Adapt treatment strategies

Building on proven solutions and bringing in cutting-edge innovation to make treatment personalization simpler than ever.

Deliver high-quality care with ease

Drive consistency in quality with protocol-driven workflows and advanced treatment management tools.

Learn from every patient

Intuitive data-driven solutions help you make informed, patient-centric and outcome-driven decisions quickly.

Enable comprehensive care

Oncology care coordination is a multidisciplinary effort, and each patient journey is unique. Choose the optimal treatment strategy using end-to-end charts and visibility of the entire cancer pathway.

...Invest in change

RT is complex and constantly evolving. We design future proof solutions that allow you to stay ahead of the curve.

Stay up and running

With remote, proactive, predictive service and proven secure technology we ensure you stay online, your data is secure, and you can keep treating patients

Tailor your journey

We're committed to openness and our modular approach allows you to build a solution that works for you. We make it easy to keep up with fast changing technology and we're by your side every step of the way.

Meet changing demands

Our scalable solutions evolve with you to meet the demands of your patients, organization and your staff.

Four key innovation areas

Oncology care

Elekta ONE | OIS, powered by MOSAIQ, is a certified health information system managing the treatment of cancer patients in both medical and radiation oncology healthcare setting

Benefit - access granular patient data and complete care pathways.

Smart Workflows

Access the level of automation and integration you need with:

Elekta ONE | Smart Voice

Elekta ONE | Smart View

Elekta ONE | Smart Flow

Benefit - more time with patients, less on repetitive tasks

Treatment Applications

Efficiently plan and deliver all treatment modalities with Elekta ONE | Planning, powered by Monaco.

Reach complete automation and personalization with Elekta ONE | Auto Planning

Benefit – high quality and efficient treatments planning and delivery

Real-world Outcomes

Unlock the power of data with:

Elekta ONE | Analytics

Elekta ONE | Plan Analytics, powered by ProKnow

Elekta ONE | Registry Informatics

Enable better patient engagement, better informed self-care and earlier interventions with Elekta ONE | Patient Companion, powered by Kaiku Health

Benefit – learn from every patient treated

Oncology Care

Advanced oncology management for **advanced care**

Elekta ONE | OIS, powered by MOSAIQ provides insight into the complete oncology patient record for all members of the cancer care team. From patient intake through scheduling, assessments, ordering, documentation, and follow-up, Elekta ONE | OIS is proven software, specifically created to meet the intricacies of complex longitudinal oncology records.

Thousands of departments have chosen to streamline their practice with the comprehensive oncology-specific EHR software that has been leading the industry since 1992.

This best-of-breed solution provides comprehensive, accessible electronic data and information right on your computer.

Supporting medical, radiation and surgical oncology, the fully integrated software suite streamlines operations with a consolidated database, while eliminating paper charts.

Automated, real-time information, **when and where** it's needed

Seamless data integration and access across your center

Improve patient safety and clinical workflow

Increase practice efficiency, financial performance and clinical quality

Smart Workflows

Manage personalized care pathways, **wherever you are**

Streamline your clinic's workflow with Elekta ONE Smart Workflows, keeping your information accessible and up-to-date.

Visualize the entire care process, where and when it suits you, across all devices.

System integration with Elekta ONE | OIS, powered by MOSAIQ allows you to complete clinical tasks from your dictation content, streamlining documentation and reducing workload.

Elekta ONE | Smart View allows you to increase productivity by taking your work and your team with you wherever you go. You can also access information, visualize care plan progress, complete tasks, and monitor department workflows.

“As we're more efficient we have more time to spend with our patients. And that's the goal.”

Liz Hyde

Director of Radiation Oncology, Radiology and Research, Oklahoma Cancer Specialists and Research Institute, Tulsa, the U.S.

Bring your workflow automation and integration to the **next level** with Elekta ONE | Smart Flow

Protocol-driven workflow management to deliver consistent, high-quality care

Free up time to focus on value-add activities with integrated and headless radiation oncology services

Access the right information and the right tool, at the right time, for the right patient

Treatment Applications

Make treatment personalization simpler than ever.

Elekta ONE | Planning, powered by Monaco provides modern and advanced planning tools for a broad range of treatments—from 3D conformal to stereotactic techniques—and expands treatment solutions with unique proton planning capabilities.

Automatically tailor plans for every single patient with the combination of robust templates, scripting and Multicriterial Optimization.

The combined use of Elekta linacs equipped with Agility™ and Elekta ONE | Planning allows High-definition Dynamic Radiosurgery (HDRS), to enable accurate planning of smaller targets and efficient delivery of highly conformal SRS/SBRT in standard treatment slots. This unique Elekta advantage is enabled by a flexible gantry rotation with variable dose rate and up 1,024 control points.

HDRS with a dynamic 1mm leaf width resolution delivers higher modulation, shorter delivery time and superior plan quality..

“Elekta ONE auto planning* methodology imitates the plan discussion process between radiation oncologists and planners, leading to a very robust and intuitive tool.”

Sara Trivellato

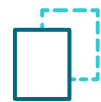

Medical physicist - Medical Physics Department
Fondazione IRCCS San Gerardo dei Tintori, Monza, Italy

Access the **next generation** of automation and decision making with Elekta ONE | Auto Planning

A richer language to express what clinicians want, with a virtual dosimetrist

No reliance on the quality of previous plan data and training models

7x faster GPU-based decentralized optimization and calculation

Real-world Outcomes

Learn from every patient treated

Get powerful insights to optimize patient care with all your clinic, patient and treatment data at your fingertips. Establish effortless case finding and streamlined abstracting to lifetime patient follow-up.

Achieve better engagement, better informed self-management and earlier interventions with Elekta ONE | Patient Companion, powered by Kaiku Health:

- Connect with your patients beyond the hospital
- Inform and engage patients effortlessly
- Improve patient safety and gain valuable insights on treatment efficacy

Discover opportunities to boost your clinic performance and unlock the power of data to enhance patient care, with Elekta ONE | Analytics and Elekta ONE | Plan Analytics

Drive the cancer registrar workflow and process forward with Elekta ONE | Registry Informatics' innovative, cloud-based application.

“The game-changer is that it is now straightforward for us to mine central data store to figure out what we’re good at and what we can improve upon.”

John Byrne

Deputy Head of Radiotherapy Physics,
Northern Centre for Cancer Care, Freeman
Hospital, The Newcastle upon Tyne Hospitals
NHS Foundation Trust, the UK

Make informed, patient-centric and outcome-driven decisions quickly.

Improve standard of care

Support your cancer survivors in the long term

Boost your clinic performance

As a leader in precision radiation therapy, Elekta is committed to ensuring every patient has access to the best cancer care possible. We openly collaborate with customers to advance sustainable, outcome-driven and cost-efficient solutions to meet evolving patient needs, improve lives and bring hope to everyone dealing with cancer. To us, it's personal, and our global team of 4,700 employees combine passion, science, and imagination to profoundly change cancer care.

We don't just build technology, we build hope.
