

# Elekta Axis Cloud

The secure cloud environment designed specifically  
for Elekta oncology software

A woman with long dark hair, wearing a blue and white striped cardigan, is shown in profile from the chest up. She is looking towards the right side of the frame. The background is a bright, hazy sunset or sunrise over a city, with the sun low on the horizon, creating a soft, golden glow. The overall mood is hopeful and contemplative.

# Smart technology to build hope

**Elekta Axis, built and fully automated in Microsoft Azure, provides the smart hosting technology that your oncology software and data revolve around**

... bringing everything together in a secure, streamlined, and meaningful way

... connecting you to every moment of the patient journey

# Axis is more than just cloud hosting

Axis is a secure managed hosting service designed specifically for Elekta oncology software to meet the needs of oncology clinics and departments

## **CLINICAL RELIABILITY**

Automated 24/7 compliance monitoring, proactive support, backup, and disaster recovery

## **SCALABILITY**

Freedom to optimize resources based on your needs and growth

## **STANDARDIZATION**

Consistent configurations across all the devices in your organization

## **COST PREDICTABILITY**

Easier budgeting with elimination of unplanned expenses

## **SECURITY**

Built and fully automated in Microsoft Azure, offering advanced security and data protection features

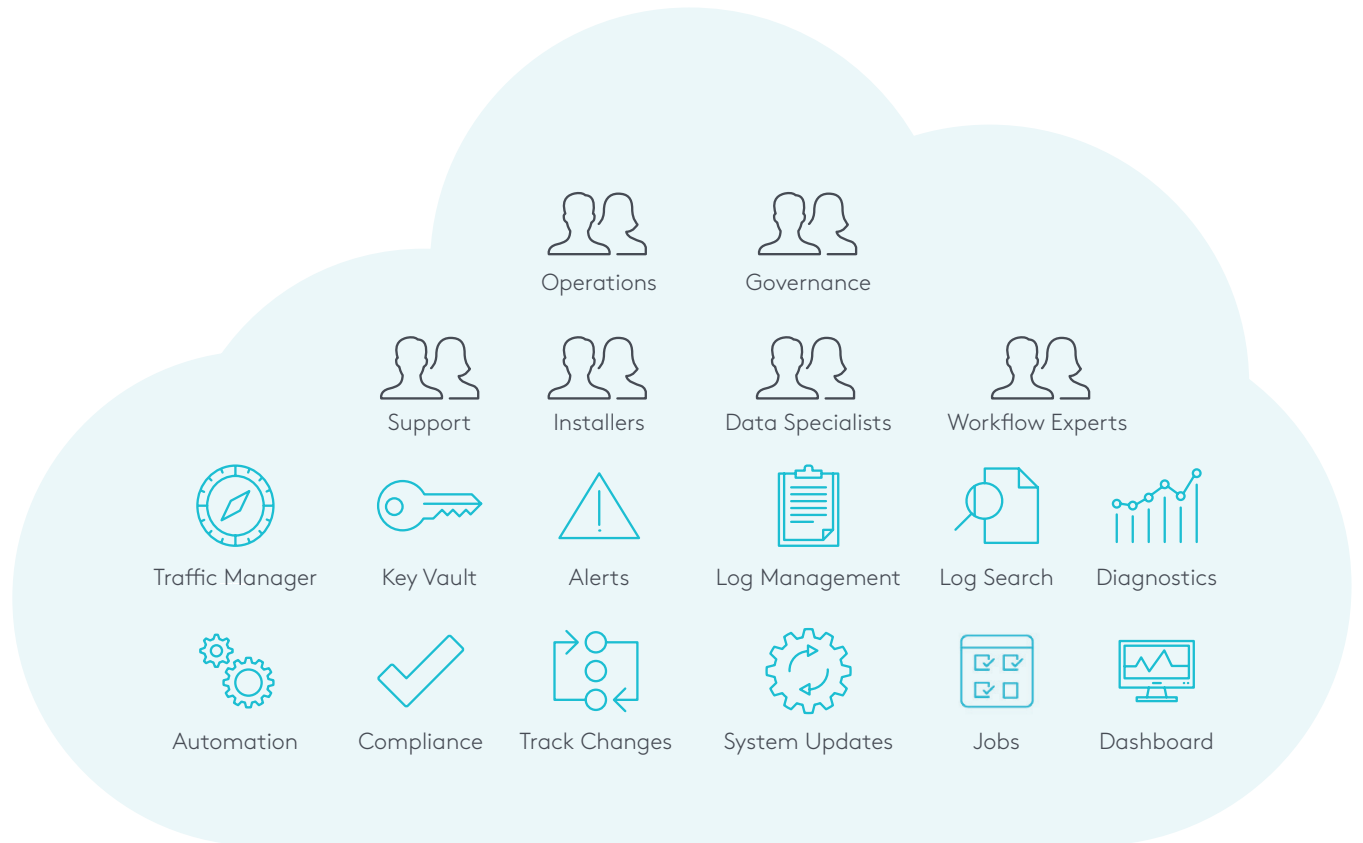

Protecting your data and system performance so you can focus on your patients

## With Axis,

the management of oncology IT environments becomes less complicated and resource intensive. You can have peace of mind that the advanced hosting service supporting your oncology software is safe and robust.

You no longer need to worry about issues such as system compliance mandates, system and software upgrades, encryption requirements, backup, and disaster recovery. Axis is a managed hosting service that provides everything you need to simplify and enhance your oncology IT environment.

# Simplifying today's complex oncology IT environments

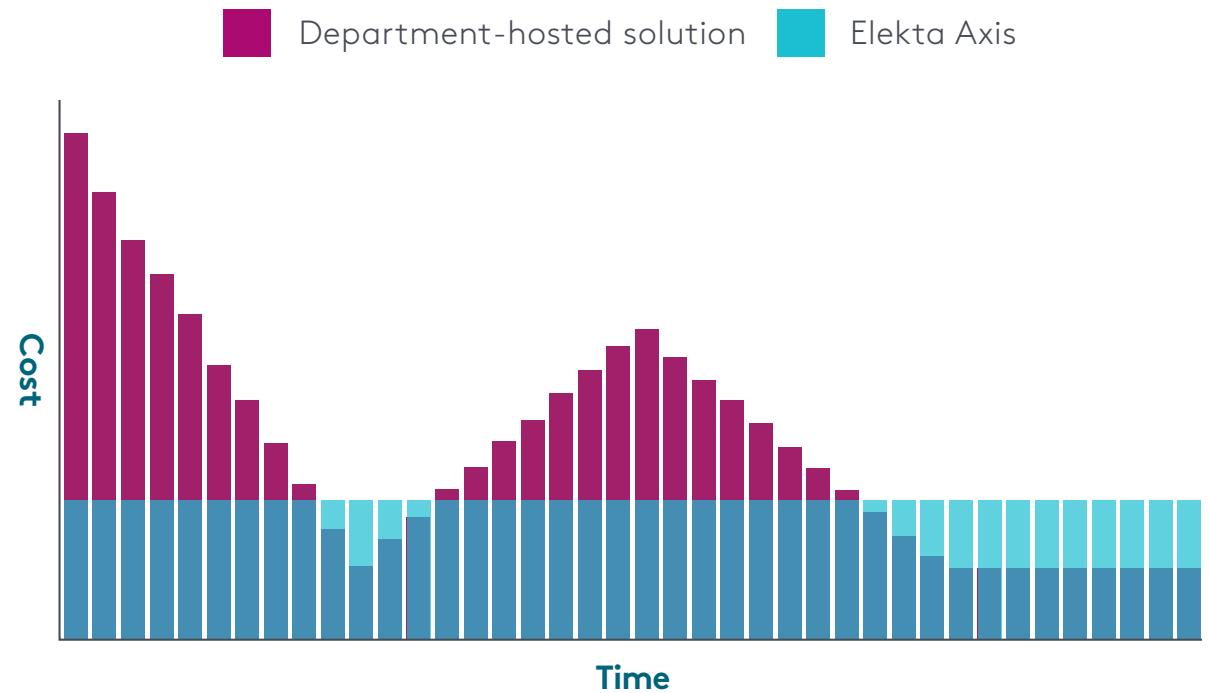

# Easing your burden with a managed service

With Axis, IT expenses are more predictable and technology management is greatly simplified

Axis is a subscription-based solution that you can scale to meet your specific needs—whatever your size, complexity, or IT capabilities.

- Eliminate unpredictable expenses, including hardware refreshes and warranty extensions
- Control oncology IT costs more easily as part of your operational budget
- Optimize resources based on your needs

# Built on a secure foundation

Axis is built in Microsoft Azure, which means your data is protected by robust data security features, including multilayer threat protection, automated security detection and response provided by Microsoft and augmented by Axis security team. It also means you have the assurance of built-in system compliance features to ensure conformance to data privacy and regulatory requirements.

## INTELLIGENT SECURITY

Big data is used to build advanced analytics and insights to ensure your security is comprehensive, fully integrated and adaptable for your needs.

## PROACTIVE SURVEILLANCE

A data-driven, human-guided security system detects and responds to attacks more quickly and accurately, as it continues to evolve, anticipate and stay ahead of risks.

## AUTOMATED SYSTEM COMPLIANCE

Axis 24/7 compliance monitoring ensures that no unauthorized changes are made to system configuration settings, ensuring that your Elekta software continues to perform optimally.

# Ensuring operational continuity

## MAXIMUM UPTIME

Axis automation and monitoring provide proactive support to detect problems before failures occur. This is one of the reasons we can guarantee 99.9%\* uptime of the systems that run your Elekta software.

## ON-DEMAND SCALABILITY

Maintained in Microsoft Azure, with system environments designed specifically for Elekta oncology software, Axis has the resources and capacity to quickly accommodate changing needs and clinical growth.

## DISASTER RECOVERY

If you experience a natural disaster, power failure, common network failure or other crisis, Axis ensures your data is backed up, protected and available in a secure location—minimizing downtime and loss of productivity.

# With Elekta you can subscribe to better

Our new software subscription model, designed specifically for MOSAIQ® Plaza and securely hosted in Axis, brings greater functionality and simpler licensing to your care teams—empowering them to put patient care first.

- Easier licensing
- Automatic upgrades
- Enhanced security
- Flexibility to grow
- Data protection
- Built-in compliance
- Clear pricing
- Single service agreement
- Device connectivity
- Smoother interoperability

## CONSOLE

Digitize your charts and get secure cloud hosting with this basic package\*.

## ESSENTIAL

Bring the convenient, intuitive mobile and tablet app to an unlimited number of users with the Essential package.

## ELEVATE

Streamline more processes and get better insights through patient dashboards and operational data with the Elevate package.

## EMPOWER

Automate even more functions and give your team the ultimate freedom to focus on care. The Empower package delivers every user the tools needed to work smarter and faster.

# MOSAIQ<sup>®</sup> Plaza

Connecting you to every  
moment of a patient's journey

MOSAIQ Plaza is a comprehensive ecosystem of integrated oncology software solutions designed to work seamlessly within Axis to deliver comprehensive, pathway-driven, value-based healthcare.

# Enhancing patient engagement and care collaboration securely within Axis

**Building toward the future of multidisciplinary cancer care, MOSAIQ® sets new standards in oncology workflow and information management.**

- Streamline daily tasks
- Elevate patient care
- Increase operational impact

**Enhance oncology workflow management, team collaboration and comprehensive patient care with MOSAIQ® SmartClinic.**

- View the entire patient pathway at a glance, wherever you are
- See and act on pending tasks to avoid delays
- Plan ahead to ensure coordinated, efficient working

# Optimizing patient care with real-world evidence

Connect data from across systems, creating insights to predict risk and help improve patient care, quality assurance and operational efficiencies

**Obtain powerful clinical and operational insights from across your MOSAIQ® Plaza ecosystem with MOSAIQ® Oncology Analytics.**

- View patterns in performance at a glance
- Maximize your operational efficiency and digital agility
- Inform workflow improvements
- Ensure efficient, multidisciplinary support for your patients

**Achieve better data, easier access, quality benchmarking and actionable insights with METRIQ®.**

- Enhanced interoperability for effortless data importation
- Fast and easy data processing
- Simple workflows and streamlined remote abstracting to elevate productivity
- Hosted on Microsoft Azure for robust data security and rapid upgrades

MOSAIQ Plaza is not available in all markets.

# Why Axis?

- ✓ Systems automation and standardization
- ✓ Maximum software performance
- ✓ Advanced security and data protection
- ✓ Risk reduction and business continuity
- ✓ On demand scalability
- ✓ Cost predictability

# Providing confidence in your data security, privacy and compliance

[www.aicpa.org/soc4so](http://www.aicpa.org/soc4so)

**SOC 2 Type 2** report demonstrates that Elekta Axis cloud services meets the security, availability and confidentiality criteria required to host your data, as audited by a qualified third party.

**ISO 27001** certification demonstrates the maturity of information systems management system (ISMS) controls related to the people, processes and technology at Elekta.

As a leader in precision radiation therapy, Elekta is committed to ensuring every patient has access to the best cancer care possible. We openly collaborate with customers to advance sustainable, outcome-driven and cost-efficient solutions to meet evolving patient needs, improve lives and bring hope to everyone dealing with cancer. To us, it's personal, and our global team of 4,700 employees combine passion, science, and imagination to profoundly change cancer care.

We don't just build technology, we build hope.
