

Azure Open AI

2 weeks Ideation Workshop by Elitmind

Elitmind Group

- Elitmind Middle East LLC - UAE
- Elitmind Doha LLC – Qatar
- Elitmind Sp. Z o. o. – Poland (HQ)
- Elitmind Academy PSA – Poland

Trusted Data Partners

Best in Class Data & AI Solutions

Ensure that artificial general intelligence (AGI) benefits **humanity**.

Empower **every person and organization** on the planet to achieve more

Use data to spark change in **Your Company!**

Summarize how OpenAI, Microsoft and Elitmind can join their efforts in a data project.

OpenAI, Microsoft, and Elitmind could collaborate in a data project by combining their respective expertise. OpenAI could contribute its advanced AI research to develop new models and algorithms. Microsoft could provide its experience in implementing AI solutions at scale through its Azure platform, and Elitmind could offer custom software development services to integrate these solutions into businesses' workflows. Additionally, the three companies could work together to integrate OpenAI's language models with Microsoft's Azure platform and develop custom solutions for extracting insights from data.

Azure OpenAI

Service Benefits

Increased efficiency and productivity

by getting more done in lesser time through rapid prototyping and quicker time to market

Faster time to realize value

Enhanced customer experience

with a greater focus on customer-centric services and products, whilst utilizing feedback and trends better

Easy to use

Even junior data scientists or business users can use Azure OpenAI Service Playground

Ensure data privacy & security

and implement it in a responsible manner using a Trusted Cloud Provider

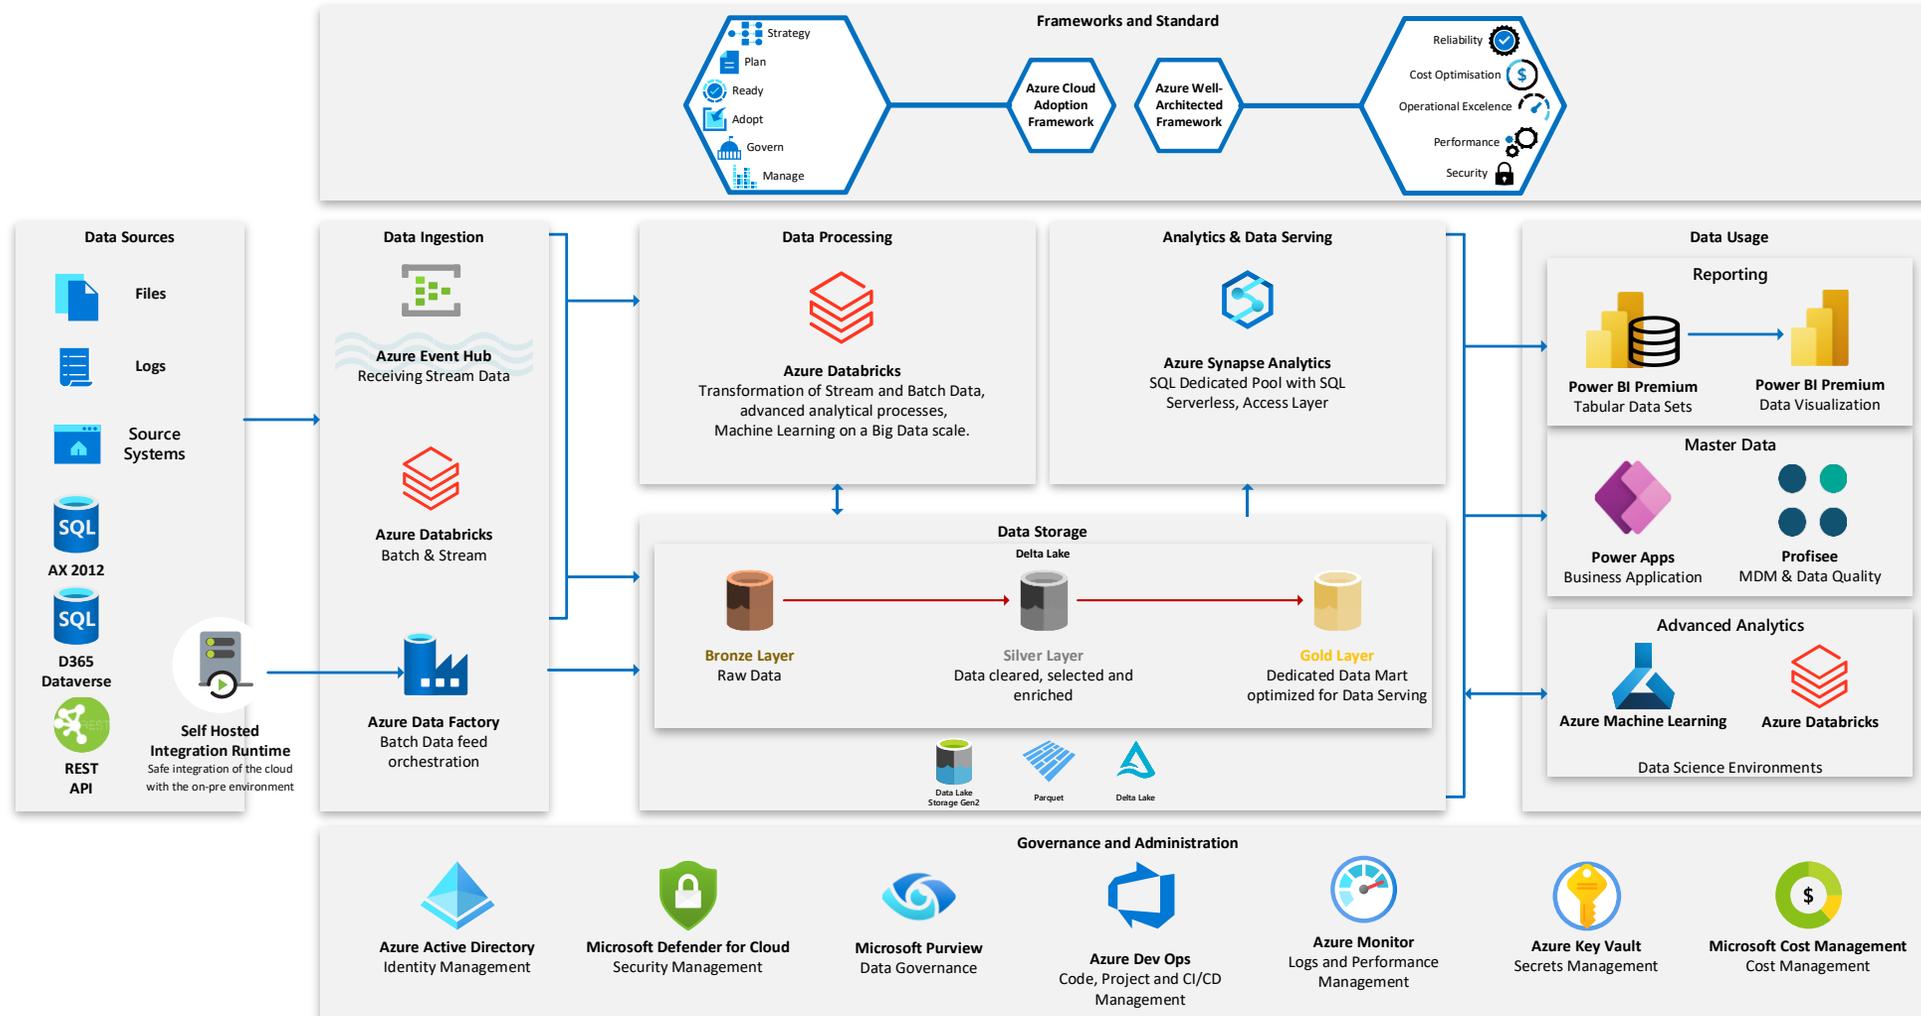

Does not require a long, tedious annotation process

Less training data is required for many relevant use cases

Ability to perform text analytics and generation tasks that up until now were reserved only for humans

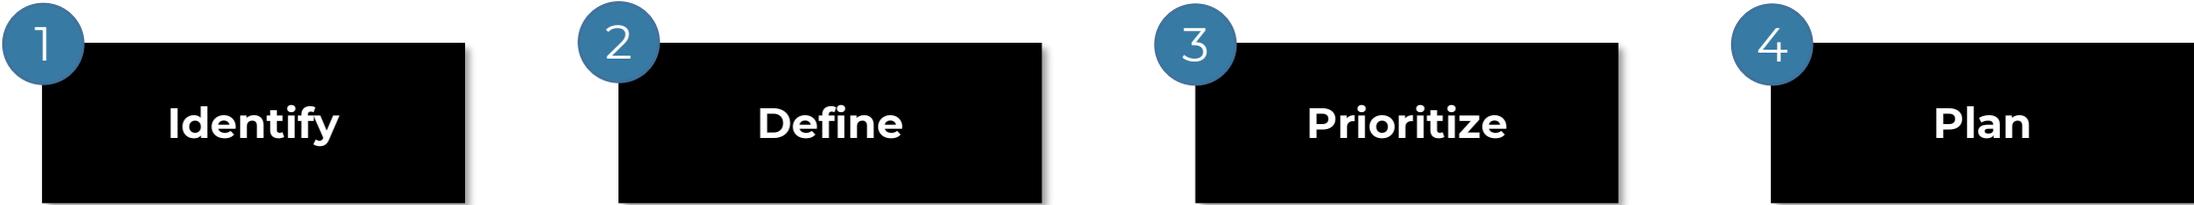

Intelligent Data Platform Architecture

Holistic Approach

The Rapid Ideation Process

How Can AI Help Me?

- Identify **pain points** that AI can address.
- Define the current and desired state
- Assess the maturity of the business process, the feasibility of the AI solution, and its value

- Define the solution
- Collaboratively fill **the AI canvas** which answers important questions about the solution and data sources

- Use a **prioritization framework** to assess all gathered cases
- Highlight the top use cases to be considered.

- Microsoft & Elitmind team will work on the scope and timelines
- Validation with the business units
- A **use case roadmap** for implementation will be defined and agreed
