Connecting citizens and employees in the office and in the field

Modern public sector increasingly demands greater transparency, accessibility, and compliance. Dynamics 365 addresses these needs through a cloud-based solution, providing seamless connectivity throughout.

CHALLENGES

Increased demand for rapid response to citizen needs, while dealing with complex reporting and statutory compliance, has created a scenario no longer tenable with disparate systems.

IDEAL SOLUTION

A single platform with end-to-end visibility from citizens and employees in the field to back office management of reporting compliance and planning.

DESIRED OUTCOMES

Coordinated field efforts resulting in rapid citizen satisfaction, as well as a quickly deployed and easy to use financial and compliance engine, in one seamless user experience.

Ellipse Public Sector

A unified blend of traditional approach and our rapid rollout methodology, the Ellipse Dynamics 365 implementation process delivers ROI faster, without sacrificing best practices along the way.

1

Connected field services

Field workers and citizens alike are in the know through an easy to use tracking portal.

2

World-class financials & compliance

Your single, secure database allows for self-service reporting, regulatory compliance, and gives you a view of the whole organization without moving from one data 'silo' to another

3

Everything and everyone is connected

Citizen service to back office reporting and financials is seamless through Dataverse.

Ellipse Solutions Public Sector & Dynamics 365

Ellipse Solutions uses a blended implementation methodology that delivers a quick hitting ROI for Public Sector agencies. Providing open communication, transparency, and continually available support along the way has led to a proven track record of customer satisfaction and retention.

Public Sector + Microsoft Cloud

The security, reliability, and accessibility of Dynamics 365 on Azure.

Public Sector + D365 Finance

Highly configurable, fully compliant financial solution for reporting, budgeting, and planning.

Public Sector + D365 Customer Service

Self-service portal allowing citizen service requests to be submitted online or by phone in single solution.

Customer success: Kentucky Lottery Places Winning Bet on D365

When Kentucky Lottery Corporation made the decision to implement Dynamics 365, they were expecting a considerable amount of pain with the process. While the move from the legacy system and procedures was significant, the go-live proved uneventful in the best way.

9 months start to finish

Life happens and sometimes project timelines need to be adjusted, but that wasn't the case for KLC.

Employees trained and smooth adoption

The training provided by Ellipse Solutions and the commitment of KLC team to best practices and following the process contributed greatly to a smooth transition to the new Dynamics 365 rollout.

Help desk available but seldom needed

Kentucky Lottery Corporation has lived up to assuming true ownership of their D365 solution with the encouragement and guidance of Ellipse Solutions.
