Complete CAF Driven Transformation: 10 weeks

Embee's Cloud Adoption Framework (CAF) transformation services works best for highly regulated enterprises and ensures scalable and agile cloud platform coupled with operational efficiencies and faster time to market.

Embee's Cloud Adoption Process

Assess & Plan

Assess, plan, and align actionable cloud adoption processes to business goals & expected outcomes.

Design & Organize

Prepare, design, and setup the cloud environment for the planned changes.

Migrate

Migrate existing workloads in waves and sprints.

Innovate

Explore areas to develop new Cloud-native or hybrid solutions within the environment.

Embee's CAF transformation services enable customers to securely plan, design & organize, and migrate workloads onto the Cloud. The framework empowers our customers to reimagine their cloud journey and accelerate hassle-free, smooth cloud adoption. The highly synchronized approach enables 'lift and shift', re-factor, re-platform and deploy a Cloud native and DevOps environment.

During the engagement, Team Embee will support the delivery of the following outcomes:

- Assessment, scoping, and migration of non-critical and critical applications and planning migration in phases

- Rationalization: Application asset sizing, Development platform and database server identification, cloud consumption cost projections and estimations, studying the existing code and decide the migration strategy whether to – Rehost/Refactor/Re-Architect/Rebuild and accordingly make changes to the code

- Azure setup to organize resources, access management, security & compliance

- Creation of an initial Azure Landing Zone built to CAF (Cloud Adoption Framework) standards

- A hardened Azure landing zone capable of higher level services such as; Azure Firewall & Security Centre

- Implement migrations in phases- Moving non-critical workloads followed by the critical ones once the Azure Landing Zone has been hardened.

Benefits of Azure CAF aligned Assessment and Migration Services:

- Our cloud experts ensure that the migration is done with maximum efficiency and zero downtimes. We turn your plans of Datacentre transformation into reality with simplified and consistent approach that optimizes consumption, security, control, and ensures your success.

- With Embee's cloud assessment and migration services ensure greater agility, security, and consistency to meet the needs of your business today and tomorrow.

- At Embee, we assess, plan, and align actionable cloud adoption processes to help you achieve your business goals & expected outcomes. Defining migration strategy and roadmap to Rehost, Refactor, Re-Architect or Rebuild your applications.

- Migration and modernization of applications in waves and sprints that's quick & error-free, so that you can focus on your vision, without worrying about them.

- We leverage emerging technologies to transform your cloud operations model, align cloud engagement with business goals, and drive innovation in development for maximum return on investment .

Why choose Embee?

Embee's certified Cloud experts have worked over cloud transformations for renowned organizations such as Aegon life, Hero FinCorp, GEP, ICERTIS, and more to simplify their operations in the cloud. While empowering 2500+ brands with technology over the course of 30 years, we have always made sure that migration and adoption processes run in a smooth, effective, and streamlined manner without any negative business impact. With Embee, you get up to 40% reduction in IT costs, up to 83% boost in developer productivity, up to 19% reduction in Risks and 3.5 less work weeks taken to perform Cloud migrations.
