

# Power Apps and Power Automate Build Service

# Digitizing business processes with Power Apps and Power Automate Build Service

## Challenges

- Tedious tasks manually performed takes away the productive hours of the employee
- Complex, paper-based processes hindering transparency
- Error prone processes
- Building apps from scratch can be cumbersome and mean huge IT costs

## Modernizing workplace with Power Apps

- Streamlining and automating processes delivers business modernization and improved business outcomes
- Employees can make better and faster decisions from better access to information
- Applications developed with PowerApps are more secure than would likely otherwise have been developed

## Desired Outcomes

- Digitized processes
- Streamlined processes
- Increased control
- Reduced IT efforts and costs
- Greater transparency
- Zero errors
- Faster decision-making
- Retired 3<sup>rd</sup> party apps that have license and maintenance costs
