

EMCE Solution Partner Oy – Your Trusted Dynamics 365 Business Central expert in Finland

Over 20 Years of Proven Expertise

We specialize in Microsoft Dynamics 365 Business Central implementations with deep experience across all functional areas. Our team ensures fast, seamless local deployments in Finland and smooth international rollouts both into Finland and from Finland to other countries.

Why Choose Us?

- Full localization expertise: Finnish VAT settings, statutory reporting, and compliance with official regulations.
- Electronic invoicing according to Finnish standards and integration with local banking systems.
- Fluent in Finnish for clear communication and local support.
- Certified consultants – over half of our team holds official Microsoft certifications.
- Custom development – we deliver tailored programming and extensions when needed.
- Accounting services – through our group, we can provide local bookkeeping for complete compliance.
- Extensive experience working with multiple partners on complex rollout projects.

Your Benefits:

- Faster go-live with minimal risk.
- Full compliance with Finnish regulations.
- Scalable solutions for international operations.

Let's make your Business Central implementation a success – locally and globally.
