SQL Server Health & Azure Migration Assessment

Ensure optimal SQL Server performance, security, and reliability with our SQL Server Health & Azure Migration Assessment. Emergent provides best practice recommendations and seamless Azure migration guidance.

Boost Security

Flag elevated privileges, list database owners not tied to the SA login, & provide Defender for Cloud guidance.

Improve Performance

Analyze memory usage, system configurations, index, CPU, memory, and I/O usage patterns for bottlenecks.

Enhance Reliability

Optimize data, log, and temp files, leverage latest enhancements, and ensure business continuity.

Mitigate Data Loss

Align backups with RPO/RTO needs and conduct regular database corruption checks.

REVIEWED ON
Clutch ★★★★★ 5 STAR RATING

EMERGENT SOFTWARE

Plan for Azure Move

Assess migration opportunities, challenges, provide cost estimates, and evaluate Azure-enabled SQL Server.

Uncover Misconfigurations

Spot unchanged default settings, unnecessary open services/ports, and improper file permissions.

Ensure Healthy Indexes

Assess index usage and fragmentation, find optimization chances, and recommend maintenance tasks.

Save on SQL Licenses

Review SQL licenses and recommend cost-saving Azure SQL options.

EMERGENT SOFTWARE

Your **Full Stack** Technology Partner

At Emergent Software, our business is helping your business succeed. We work as a trusted extension of your team, providing software development, cloud transformation, and data engineering solutions.

We're here to solve today's problems and help you build for tomorrow.
