Why work with us

Trusted Long-Term Partner

Our goal is to be a trusted extension of your team, delivering successful projects for years to come.

Solutions Oriented Approach

We're focused on solutions, not products; prioritizing long-term value through quality-driven delivery.

Flexible Engagement Options

We offer pro and managed services, allowing you to engage a full team on a turn-key project or enhance your existing team with one of our specialists.

Why Perform a 365 Tenant Assessment?

💰 Optimize Resource Use

Identify overused or underutilized licenses to streamline costs and improve efficiency.

🛡️ Enhance Security Posture

Strengthen security settings to protect data and comply with industry standards.

🤖 Future-Proof Technology

Prepare your infrastructure for new technologies and future growth opportunities.

Benefits of our 365 Tenant Assessment

Boost Security
Strengthen defenses by improving identity protection, multifactor authentication, and access controls, ensuring compliance with the latest standards and regulations.

Optimize Licenses
Evaluate and adjust Microsoft 365 license configurations to align with your actual usage, helping to reduce costs while ensuring all users have necessary access.

Prepare for Copilot
Prepare your infrastructure for the integration of Microsoft 365 Copilot, enabling your organization to leverage AI capabilities for improved productivity and decision-making.

Assure Compliance
Ensure your Microsoft 365 setup adheres to industry regulations and data protection laws, minimizing legal risks and enhancing trust with stakeholders.

Benefits of our 365 Tenant Assessment

Ensure Data Governance

Enhance data management policies, including retention, encryption, and loss prevention, to protect sensitive information and support efficient data handling practices.

Future-Proof Infrastructure

Optimize your IT environment to support current operations and future growth, ensuring it can handle new technologies and increased workloads.
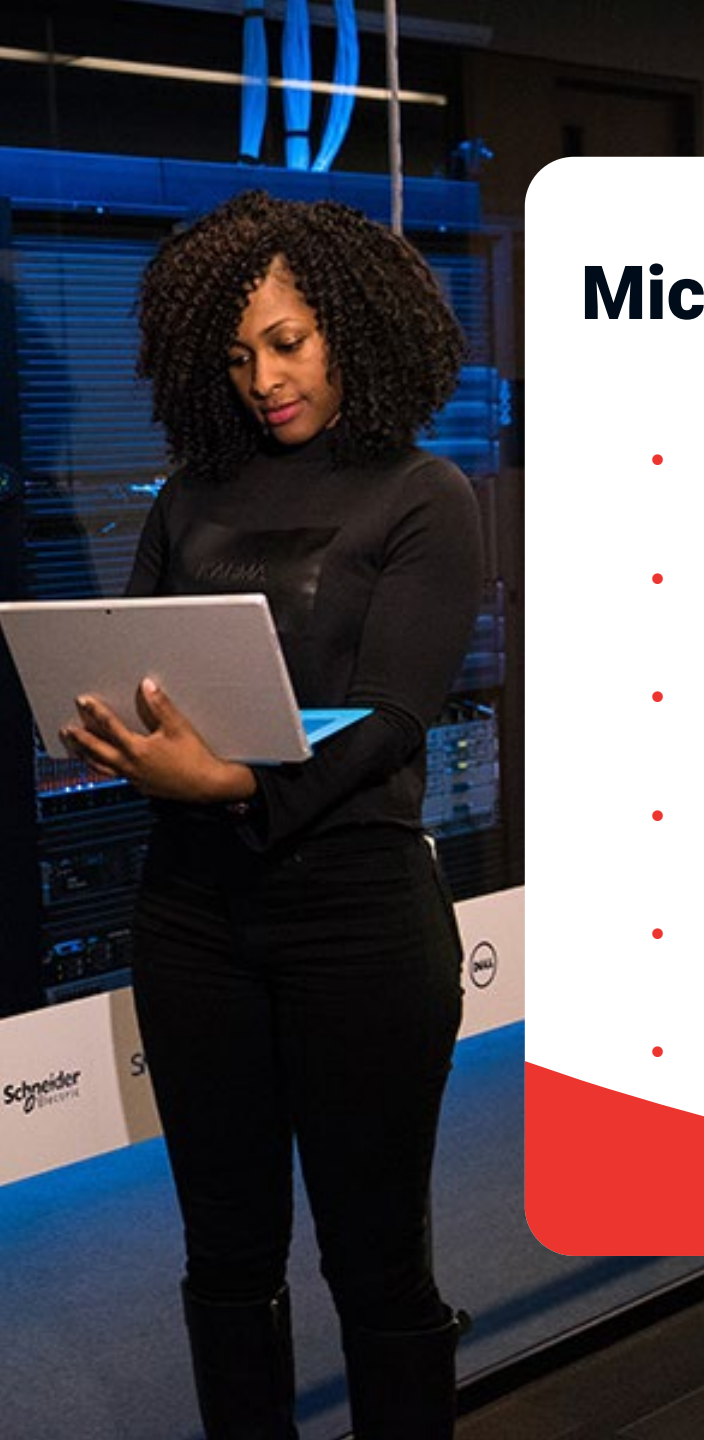

Profile Users

Develop a deeper understanding of how different user groups engage with Microsoft 365, allowing for more targeted training and support.

Plan Microsoft Strategy

Provide tailored advice on using Microsoft 365 more effectively, based on a thorough assessment of your current environment and business needs.

Microsoft 365 Tenant & Copilot Readiness Assessment

- Evaluate current Microsoft 365 license utilization.

- Analyze security settings and access controls.

- Assess readiness for AI integration with Copilot.

- Review data governance and compliance policies.

- Conduct user profiling and analyze their usage.

- Review Microsoft 365 infrastructure for scalability.

- Verify compliance with data protection regulations.

- Provide customized recommendations for system improvements.

- Identify opportunities for license & usage related cost reduction.

- Examine data retention and encryption strategies.

- Analyze endpoint management and security practices.

- Assess effectiveness of collaboration and communication tools.
