

SQL Managed Services

Outsource the management of your mission-critical Azure SQL and on-premises SQL Server infrastructure to Emergent Software.

Our expert team of senior DBAs with extensive knowledge of both Azure & SQL Server provide proactive monitoring, fast alert response times, and performance optimizations — all while protecting and securing your data.

Access to Senior DBAs

Our experienced SQL DBAs specialize in managing Azure SQL & SQL Server

24x7 Real-time Monitoring

SQL specific alerts and fast response in your chosen window

Ensure Business Continuity

Backup & restore processes that meet your RPO & RTO

Achieve Data Protection & Security

Quarterly security audits plus data classification and encryption policies

Regular Health Checks

Quarterly review meetings and detailed reports delivered to your inbox

Improve Database Performance

Query optimization, index tuning, and performant SQL & ETL development

Avoid Disaster Scenarios

Know about database corruption & disk space issues before it's too late

Reduce Licensing Costs

Consolidate databases onto Azure SQL elastic pools or shared infrastructure

EMERGENT
SOFTWARE

Your Full Stack Technology Partner
