

ENABLE 365 - Agenda

- Spar tid med effektive møter

Introduction

Take control of your meetings with Enable 365 Agenda Meeting App

Agenda is a Microsoft Teams app to help you conduct meetings efficiently. With Agenda, meeting management will become easy, as you will have support from planning to execution and with after-meeting tasks, such as distributing minutes.

After you have purchased Agenda for your business, it is ready to use on one or more Teams, depending on your license.

This guide describes how to install Agenda in your team.

Good luck!

	Contact us: a	g <u>enda@enable.no</u>			
Post to	the channel about this tab	E	Back	Save	

The next step will be to set up permissions for the app. Press "Continue."

₹ 🗐
Almost there!
We need to ask for additional permissions. You should only need to do this once for Enable 365 Agenda.
Cancel Continue

In this dialog, you'll be asked to confirm permissions to use the app in your Microsoft 365 tenant. Details of which permissions have been requested are described in the dialog.

Check "Consent on behalf of the organization" and press "Accept."

In the end,

Some permissions needs to be consented for this app to run. Click the button(s) below to open a consent window.					
	SharePoint	Microsoft Graph			

Select "SharePoint."

Check "Consent on behalf of the organization" and press "Accept."

Select "Microsoft Graph".

Check "Give consent on behalf of the organization" and press "Accept."

After all consents are in place, the app will be fully configured, and the following will appear:

+ Create meeting		Settings			
\leftarrow Historical meetings	ightarrow Upcoming meetings	Templates			₹
			\odot		
		Nothi	ng to show		

Enable 365 Agenda is now installed and ready to use.

Further installation to other teams

After installation, it is ready for use in other teams – consents only need to be made in the first installation of the Enable 365 Agenda app.

Tip! See separate documentation for setup and user manual with tips on how to create and conduct meetings.
