eGroup | ENABLING TECHNOLOGIES
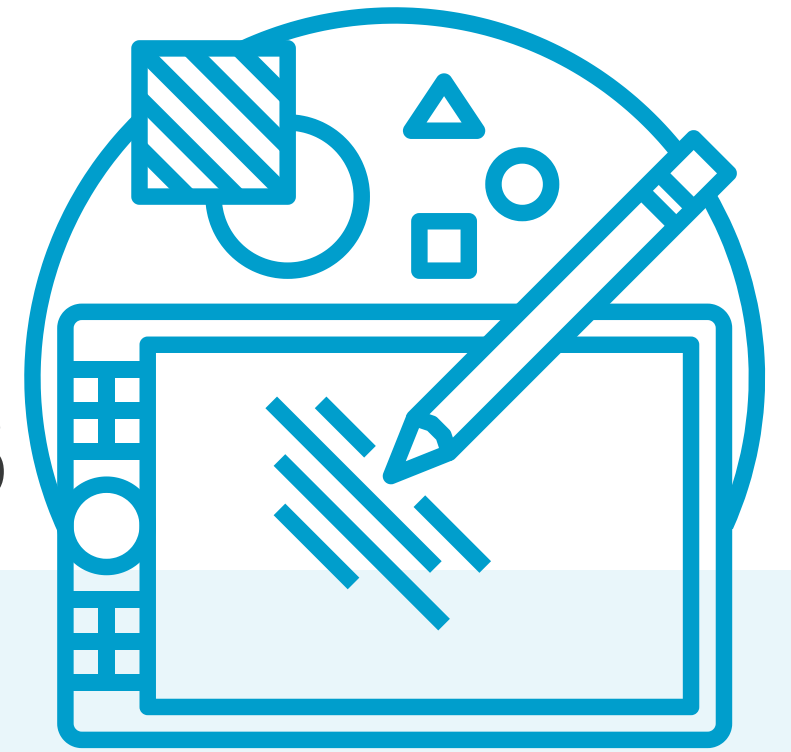

together we make IT happen

ELEVATE YOUR EFFICIENCY, INNOVATION, AND PRECISION USING CUSTOM AI SOLUTIONS

with an eGroup Enabling Technologies AI Design Sprint

AI DESIGN SPRINT OVERVIEW

DAY ONE
- Perform a high-level, end-to-end data needs walkthrough.
- Identify all systems/applications and data in current solution (if applicable).

DAY TWO
- Finish the discovery process.

DAY THREE
- Start documenting a detailed Copilot solution architecture diagram (data sources, process steps, application integrations).

DAY FOUR
- Finish creating the Copilot solution architecture and document high-level implementation plan (resources, effort, cost, and timeline).

DAY FIVE
- Review future-state with client and adjust as needed.
- Discuss timing for moving to implementation phase.

AI WILL HAVE AN ESTIMATED 21% NET INCREASE IN THE UNITED STATES GDP BY 2030

Enhance your efficiency by integrating AI into your existing business processes and have AI take over mundane and labor-intensive tasks with greater speed and accuracy, saving you money in the process. Reinvent your processes with one of our "Process Optimization" solutions and integrate AI to transform your business and improve the quality of output. Hone your precision by applying AI to address your specific needs, focusing on the right AI capability to solve your users' most vexing challenges.
