eGroup | **ENABLING** TECHNOLOGIES

together we make IT happen

VIRTUAL DESKTOP SOLUTIONS

Securely connect to critical organization applications and information from any location and any device. Enable your user's productivity with secure and flexible Virtual Desktops.

VIRTUAL DESKTOP SOLUTIONS FOR NONPROFITS

Virtual Desktops offer secure, right-sized access to your nonprofit organization's volunteers and staff. With VDI, you can scale quickly, with precision, to meet your application needs. eGroup Enabling Technologies has 30+ years of experience in deploying, migrating, and upgrading VDI solutions across multiple industry use cases, including the nonprofit sector.

NONPROFIT SERVICE AND COLLABORATION ANYTIME, ANYWHERE

AZURE VIRTUAL DESKTOP PROOF OF CONCEPT

- You Need to Scale Efficiently On-Demand
- Understand your End-User Productivity Use Case(s)
- Plan application requirements to support performance
- Design Conditional Access Management to secure access with Microsoft Entra ID (Formerly Azure AD)
- Deploy Azure Virtual Desktop
- Test End-User Use Case(s)
- Provide Upskilling and Knowledge Transfer to your nonprofit organization's IT team

CITRIX CLOUD ON MICROSOFT AZURE

Go deeper with an Azure Foundations Engagement. Build upon the Azure Express engagement + Cloud Architecture Framework by...

- Categorizing workloads for migration
- Prioritizing migration order
- Finalizing a detailed Governance Plan

SCALE HORIZON VIEW WITH AN AZURE VMWARE SOLUTION

Engage eGroup Enabling Technologies in an Azure Assessment to learn how you can provide cloud desktop resilience or migrate Virtual Desktop Infrastructure (VDI) to the cloud with an Azure VMware Solution for Horizon View.

- Plan and Design Azure VMware Solution Requirements
- Develop Application and Desktop Image Requirements
- Plan for Network Connectivity, Performance, and Security
- Deploy Horizon View Desktop to Microsoft Azure VMware Solution
