

# CUSTOMIZED DOCUMENT REDACTION POWERED BY AZURE AI LANGUAGE SERVICE

**SKIP THE LINE-BY-LINE PROCESSING OF REDACTING DOCUMENTS MANUALLY, AND LEVERAGE AI FOR THE TASK**

This AI-driven solution transforms document redaction from a manual, time-intensive, and intricate process to an efficient, customizable, and automated experience. RedactAI significantly boosts efficiency and compliance, enabling you to get back to your most important work.

This solution was developed using a collection of Microsoft technologies, including Canvas Power Apps, Azure AI Language Service, Azure Functions, and Power Automate. Upload a PDF document and let AI do the work of scanning and detecting PII terms that you can further customize before applying a final redaction to your document.

## Key Benefits of the RedactAI Tool

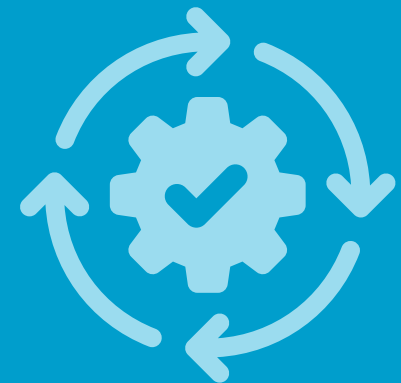

### COMPREHENSIVE SYSTEM

Pre-Built Tool Includes Uploading, Managing, and Approval Processes for Redacted Documents

### EASY TO USE

User-Friendly and Fully Customizable for Precisely Defining Redaction Criteria and Exclusions, with Minimal Training Required

### INCREASED EFFICIENCY

Minimize Manual Effort and Increase Your Redaction Speed By Minimum 2x, Streamlining Your Workflow and Boosting Productivity

**Save Time And Money By Leveraging RedactAI To Expedite Your PII Redaction Process**

**“This solution not only provides the faculty with a resource they need to be successful in their research endeavors but has enormous potential to impact other areas of the institution and additional use cases.”**

DR. JENNIFER WOODWARD, VICE CHANCELLOR SPONSORED PROGRAMS AND RESEARCH OPERATIONS AT UNIVERSITY OF PITTSBURGH
