

ENABLE USERS TO BE PRODUCTIVE, ON ANY DEVICE, WITHOUT COMPROMISING SECURITY

with eGroup Enabling Technologies Modern Endpoint Management

**ENTERPRISE MOBILITY
& SECURITY**

MICROSOFT DEFENDER

MICROSOFT INTUNE

How are you managing your mobile devices, laptops, and other user endpoints?

Do you know if devices are compliant with your IT policies?

Today's users are looking for more ways to remain productive while working on any device. All of these devices add additional risks when you consider that 70 million smartphones are lost every year. Businesses are looking for ways to secure the end-user experience while eliminating time-intensive management efforts

With an eGroup Enabling Technologies Modern Endpoint deployment, you can increase security, reduce management time, and meet compliance goals while delivering a superior end-user experience.

- **ZERO-TOUCH DEPLOYMENT WITH WINDOWS AUTOPILOT**
- **SECURE IDENTITY WITH AZURE ACTIVE DIRECTORY**
- **CLOUD MANAGEMENT WITH INTUNE**
- **SEAMLESS UPDATES WITH ENDPOINT MANAGER**

+SECURE HARDWARE

STREAMLINED DEPLOYMENTS WITH WINDOWS AUTOPILOT

Reduce IT complexity and eliminate time-consuming corporate re-imaging by shipping and deploying straight to users because Microsoft Surface is built for the Windows Autopilot Zero-Touch Deployment experience.

Your Users Simply Open The Box and Sign In

Windows Autopilot will take care of the rest by provisioning policies, profiles, and apps to the desktop and enabling the user to get to work almost immediately. Save time and money by streamlining the desktop provisioning process and allowing your team to focus on what drives your business forward.

COMPLETE DEVICE MANAGEMENT WITH INTUNE
