What the Migration Assessment Tool Reveals

1. Readiness to migrate to the Cloud
 2. Migration options based on modules and data in your Dynamics ERP solution
 3. Guidance on your Cloud journey so you can plan accordingly
-

your Dynamics SL

business is using a legacy ERP solution such as Microsoft Dynamics SL, you are missing out on the value of working with integrated, collaborative tools, and access to your information anytime, anywhere from any device.

Our migration assessment tool can analyze your Dynamics SL on-premises data to help you determine where you are in your Cloud journey and what you should consider when migrating to Dynamics 365 Business Central.

ENAVATE can help you optimize your Cloud investment. We are offering clients the opportunity to run the assessment tool at **no charge**.
