

Sales Accelerator: 7-Day Implementation

Go live on Dynamics 365 Sales in seven business days.

Sales Accelerator is a fixed-scope Dynamics 365 Sales rollout for small and mid-sized teams of up to 15 users. We configure the components that matter from day one, import your data, and train your team, so you start selling in a working CRM right away.

WHAT'S INCLUDED

- ✓ A Dynamics 365 Sales environment configured around how your team sells
- ✓ User setup and licensing guidance (Microsoft license costs billed separately)
- ✓ Import of your existing leads, accounts, and contacts
- ✓ Pipeline views and dashboards so managers see deals in real time
- ✓ A live training session plus access to our on-demand video library
- ✓ Documentation of the setup so your team can maintain it

HOW IT WORKS

- Day 1** Kickoff and discovery. We map how your team sells and confirm the build plan.
- Days 2-4** Build and configure your pipeline, accounts, contacts, and views.
- Days 5-6** Import your data and train your team in a live working session.
- Day 7** Go live in your new Dynamics 365 Sales environment.

PREREQUISITES

- ✓ Dynamics 365 Sales licenses for your users
- ✓ Your existing lead, account, and contact data in an importable format
