

Encodian Flowr

As Encodian's most popular solution with over 30,000 users, Flowr sets the standard for document management and format conversions in Power Automate. This standard connector is a one-stop solution for any media manipulation needs.

Why Flowr?

Standard Connector

As a Standard Power Automate Connector, Flowr is available to anyone using Power Automate. No costly Premium fees necessary.

Inclusive Support

We know that not everyone is a Power Automate master, that's why we offer support to our Flowr users straight out of the box!

Developer-friendly

Flowr has been designed for developers by developers, meaning our actions work superbly! It also means we're always open to feedback.

Agile Project Delivery

Build solutions in days or weeks and not months with Encodian Flowr actions at your fingertips. Reliable, easy to use, feature rich while minimising support requirements.

Scalable

With our multi-tenant usage based pricing, you can scale requirements up and down for each client's individual needs. Build Flowr into solution packages and easily resell them.

Encodian Flowr

Flowr's Features

Format Conversion

From simple PDF conversions to more specific TIFF and PowerPoint conversions. Flowr allows users to automate the conversion of documents.

PDF Documents & Forms

Whether you need to redact certain information, add page numbers or simply compress, PDFs are a pillar of business in the 21st Century, so get the most out of them by creating a flow and letting it do all the heavy lifting.

Merge & Split Documents

From PDFs to Excel and PowerPoint, merge and split documents with Power Automate.

OCR

OCR (Optical Character Recognition) your documents without lifting a finger. Flowr can Extract text from images and PDFs automatically so you don't have to!

Word Documents

Whether you're populating Word documents from JSON or replacing text, automate the tedious with Flowr!

Image Management

Change formats, clean up images, resize images and more using Power Automate thanks to Flowr.

Watermarks & Stamps

Automate the addition of watermarks on PDFs, Word and images.

Data Extraction

Automate the extraction of data from forms, regions, PDFs and more, as well as parse CSV.

Barcodes

Create and read barcodes and QR codes with ease by letting Power Automate do it for you!

Utilities

Quick solutions to simple headaches. Save time by automating the archive process, creating HMACs and more.
