## Microsoft Dynamics ERP, CRM and Cloud Online Search: Endeavour Solutions Canada

### Hear from the experts in Dynamics GP and Business Central

Receive a Free assessment to discuss and validate your readiness and for starting your digital transformation to Dynamics 365 Business Central (cloud or on-premises) from your current Microsoft Dynamics GP (aka Great Plains) on-premises ERP.

In this consultation will be discussions around technical and business considerations as well as budgetary estimates. **Endeavour is the largest Dynamics GP partner in Canada** and has over 30 years' experience in working with Dynamics GP. Our large consulting team is comprised of seasoned Dynamics GP consultants as well as experienced NAV consultants who have performed many recent Dynamics 365 Business Central implementations.

Endeavour has a number of tools and accelerators to help with your cloud migration, however there are many fundamental components that cannot be migrated with ease and thus require special attention and effort (ie Chart of Accounts) to support of smooth transition and to maintain end-user productivity. **Key examples** include accessing historical data, updating billing templates and reports as well as implementing Change Management and training procedures for end-users.

Free **Dynamics GP to Business Central** consultation to advise you on your options.

Steve Ewing, Vice President

**Endeavour Solutions Inc.**
