Microsoft

Are you...

- A CTO responsible for a solution running on Azure Data Lake Analytics?
- A Head of Development / Data leading a team who are developing solutions running Azure Data Lake Analytics?

Azure Data Lake Analytics is being
sunsetting.

endjin

But, there is no need to throw away
everything you've learned....

endjin

Azure Synapse Analytics offers many of the same benefits, and a whole lot more...

endjin

Migrate your existing workloads.

Retain your existing skills.

Grow your data capabilities.

endjin

We can help you

- Migrate data from Data Lake Store Gen 1 to Gen 2
- Translate USQL into TSQL
- Convert data into Synapse friendly file formats
- Identify bring-your-own-runtime alternatives
- Map your existing security model to Azure Synapse Analytics
- Update CI/CD
- Optimise workloads for cost and scale
- Adapt existing cost management processes

endjin

Engagement process

Review your existing Azure Data Lake Analytics workloads

Define your data migration & security architecture

Understand your risks & organisational change

Validate your thinking through proof of value

Optimise your workloads for cost and performance

Prioritise & plan your ongoing roadmap

endjin

What do I get?

1. Half-day solution review workshop.
2. Candidate solution, data & security architecture.
3. Organisational readiness assessment.
3. Azure Synapse Analytics design proof of value.
4. Half-day roadmap, budget & planning workshop.

Why endjin?

We help small teams achieve big things.

We are a consultancy with deep expertise in Azure, Data, AI, & complex software engineering.

We help our customers succeed by adopting our best traits; absorbing our expertise, assimilating our processes, and leveraging our Intellectual Property.

We are Microsoft Gold Partner for Cloud Platform, Data Platform, Data Analytics, DevOps, a Power BI Partner, and .NET Foundation Corporate Sponsors.
