Azure Synapse Analytics Jumpstart

£15,000

process: self-assessment > discovery workshop > data landscape > report design > architecture > roadmap

Are you...

- A CTO creating a roadmap for your data platform modernisation?

- An IT Director trying to reduce the operational cost of your data platform while increasing security?

- A Head of Reporting needing to increase agility and speed of delivery of new insights?

- A Business Unit Manager delivering a tactical reporting project on a tight deadline?

- A Head of Development creating new analytical capabilities with your existing team?

endjin
