Cloud Migration Assessment

enfo

CLOUD MIGRATION ASSESSMENT

Get help evaluating your overall infrastructure in relation to on-premises deployments and future cloud-strategy with insights on the business, cost, and technology benefits of migration.

enfo

Why assess?

If you are pondering on one or more questions below,
this assessment will bring you value

QUESTIONS

Which of my applications have a great cloud-fit?

What new technological possibilities are out there?

How could I save money by using public cloud?

What obstacles there are in my environment for a cloud migration

What technical dependencies there are in my environment?

How much the cloud costs compared to my current costs?

enfo

BENEFIT

INFRASTRUCTURE ASSESSMENT
- Basic information for the whole environment
- Technical dependencies & technical obstacles
- Running cost estimate & initial business case
- Identifying quick wins & low-hanging fruits
- (Proof of Concept migration for a chosen quick win)

"Rearchitect"

"Repurchase"

"Replatform"

"Rehost"

"Retain"
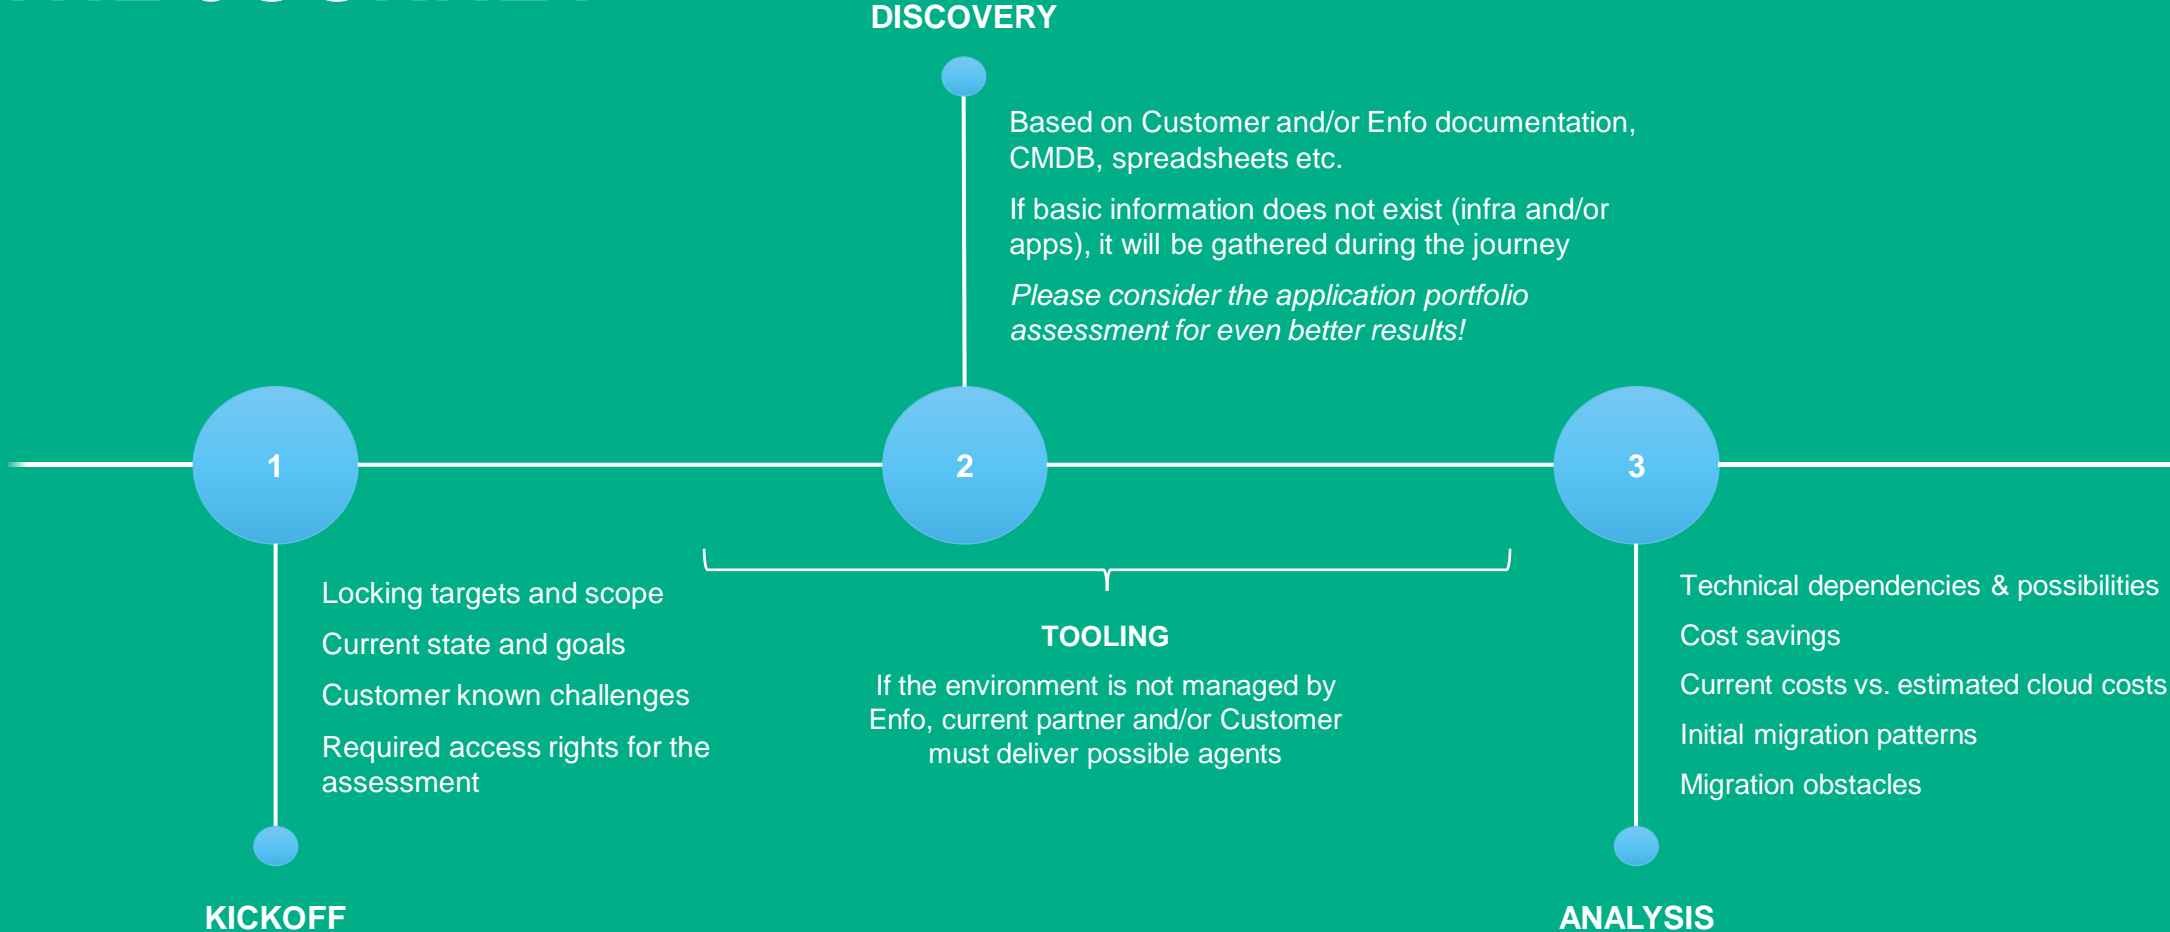

"Retire"

APPLICATION PORTFOLIO ASSESSMENT
- Workshops to assess applications
- Application lifecycle and business criticality
- Gathering basic information (if lacking)
- Cloud-fit based on application profile
- Identifying quick wins & low-hanging fruits
- Initial migration patterns

TIME

enfo

THE JOURNEY

DISCOVERY

Based on Customer and/or Enfo documentation, CMDB, spreadsheets etc.

If basic information does not exist (infra and/or apps), it will be gathered during the journey

Please consider the application portfolio assessment for even better results!

3

TOOLING

If the environment is not managed by Enfo, current partner and/or Customer must deliver possible agents

Locking targets and scope

Current state and goals

Customer known challenges

Required access rights for the assessment

Technical dependencies & possibilities

Cost savings

Current costs vs. estimated cloud costs

Initial migration patterns

Migration obstacles

KICKOFF

ANALYSIS

enfo

TANGIBLE RESULTS?

4

Final report

High-level roadmap

Joint review session

SUMMARY

FINAL REPORT

Current state and proposed next steps for Customer application environments

- Technical possibilites
- Cost-savings
- Current costs vs. estimated cloud costs
- Proposed migration patterns
- Migration obstacles
- High-level roadmap

TOOLS (CLOUDAMIZE, MIGRATE)

Online reports + raw data as spreadsheets

enfo

Thank you!

**Headed in the same direction
– walk there together?**
