

Gov Address Book

The Gov Address Book is a custom Teams application that helps people to easily search for and connect with colleagues across tenants.

Powered by Azure Cognitive Search, the Gov Address Book provides a Google-like search experience, allowing users to find people through name, role or email address. It's a simple and secure app that enables frictionless communication between collaborative agencies.

Expected outcomes

- ✓ Generate buy-in and increase awareness of the solution with relevant agencies/departments
- ✓ Improve collaboration and communication across your organisation in a secure way
- ✓ Find the right people across partner agencies
- ✓ Support staff to expand their networks in a more seamless way

Reviewing your existing environment

We'll spend some time upfront reviewing your existing environment, understanding your requirements and mapping the agencies and vendors that you want to include.

Completing testing and UAT

Using the insights gathered from our planning phase, we'll move into deployment, this includes developing the solution package, refining any issues, completing UAT and providing.

Providing go-live support

We'll work closely with your team to test and resolve identified issues or friction in the user experience. We'll also train your team to ensure a high level of adoption from the get-go.

What is the timeframe of this engagement?

~\$25,000 AUD

What is the expected investment?

4-6 weeks

Who is this engagement suitable for?

Any organisation that frequently collaborates with external agencies and vendors
